STEP 1

While holding one side panel upright, align and loosely connect top cross brace. This cross brace is placed on the inside of side panel upright, insert a 5/8" screw into top hole of cross brace, then through panel and into tool hook. Tool hook faces outward. Insert from the inside the 3/8" screw into the lower hole. This screw does not connect to a hook. The outer hole does not show when the hanging tool is in place. Repeat for opposite side. (Fig. 1)

STEP 2

Loosely attach opposite side panel to top cross braces following directions in Step 1.

STEP 3

Turn frame on side. Position pan with the flange side down. Slightly pull bottom sides of frame apart to seat pan. Align and insert 1/2" screws through pan. Attach nuts to screws on bottom side of pan. (Fig. 2)

STEP 4

Tighten all screws.
