

Grand Elevate® Espresso

GRAND ELEVATE® ESPRESSO

74008 Grand Elevate® Espresso

Introducing the Grand Elevate® from Touchstone Home Products, the thinnest big screen TV cabinet made today. The big brother to the popular Elevate® line of TV lift cabinets, the Grand Elevate® is Touchstone's answer for all those customers who loved the style and simplicity of the any-room Elevate®, but wanted to see it built for a larger flat screen television. When you are ready to watch TV, the Grand Elevate® lifts your large flat screen TV to an ideal viewing height. When your TV is not in use, the Grand Elevate® can house your flat screen TV inside a slimline, 20" deep espresso finished cabinet, where it stays completely out of view. Most 60" TVs will fit in the Grand Elevate®, and it can be placed against the wall or at the foot of a bed, delivering the versatility and size you need. Of course, don't be afraid to use a smaller TV on the Grand Elevate®, as it will look great with any flat screen TV. The wood cabinet console is finished in a beautiful espresso. Don't compare the price of the Grand Elevate® to other full size cabinets and let the low price confuse you. The quality of the fit and finish of the Grand Elevate® will exceed the quality of premium cabinets from most other brands of TV lift cabinets available today. You'll be thrilled with the quality of this cabinet from the moment you open the box.

The Grand Elevate® is also available in unfinished wood, allowing you to paint or stain the cabinet to match your decor.
