

Triple Fuel Freestanding Collection

Buy today, Light tonight

Integrate a freestanding fire element that is both beautiful and functional in just minutes.

Extensive Range

Our collection seamlessly integrates fireplace innovation with multifunctional design. Our fire tables are designed with ample dimensions to accommodate drinks and dining, while our fire pits create a social gathering point. Available in different shapes, sizes and finishes, you're guaranteed to make memories around our ethanol fires.

Indoor & Outdoor

Our extensive freestanding collection offers you unprecedented choice and is the perfect solution to any design or decor.

Versatile and Incredibly Durable

EcoSmart freestanding fireplaces are versatile, incredibly durable, and are constructed of weather resistant materials. These fireplaces are designed to look great for years, and will perform admirably through all four seasons.

Triple Fuel Advantage

Choose from 3 fuel types to fit the needs of your project:

- Eco-friendly, plant-based, Ethanol Fuel for Indoor or Outdoor installation. Visit e-nrg.com
- Plumbed Natural Gas requiring no refueling - ever. Outdoor only.
- Readily available Liquid Propane with up to 65,000 BTU's. Outdoor only.

Choose your perfect fire in 4 simple steps

1. Select your style

Our classic Fire Pits and multi-functional Fire Tables are available in different shapes and sizes. Select the style that will perfectly complement your space.

2. Select your finish

Select the finish that best suits your decor.

Concrete

Our commercial-grade concrete is extremely durable yet incredibly lightweight. Incorporating Fluid Technology, our concrete is water, stain, UV, and scratch-resistant and repels dust and debris for an easy clean.

Teak*

Our industry-exclusive teak finish is made of the strongest and most durable hardwood available. Its natural oil repels water keeping it from warping, cracking, or becoming brittle. As versatile as it is durable, teak beautifully integrates into every outdoor design for a natural yet luxurious look.

*Not available for Ark 40, & Pod Series.

3. Select your application

Your fire feature will be configured for indoor or outdoor use.

Indoor

For indoor use, select "indoor" and choose ethanol fuel.

Outdoor

For outdoor use, select "outdoor" and choose from ethanol, natural gas, or liquid propane fuel options.

4. Select your fuel type

Our Triple Fuel Technology (NG/LP/Ethanol) delivers an unmatched fire solution suitable for indoor and outdoor settings.

NATURAL GAS

Our Natural Gas (NG) systems provide not only the lowest cost of operation, they require no refuelling of any type, ever. Offering a high heat output and the flexibility to adjust the height of the flame as you desire, our Natural Gas burners feature a push button ignition and are UL/ULC Listed.

LIQUID PROPANE

Fueled by readily available propane, our LP solutions feature up to 65,000 BTUs of heat output while requiring no costs for installation. Our LP burners are UL/ULC Listed, include a battery powered push button ignition and offer the flexibility to relocate your fire feature as needed.

e-NRG BIOETHANOL

Eco-friendly and plant-based, our ethanol fuel technology is suitable for indoor or outdoor installation. Our UL Listed ethanol fires are installed and operated in a matter of minutes. Completely self-contained, ethanol provides the freedom to relocate your fire as desired without any limitations.
