### areas of use

### care instructions

Vacuum your rug regularly as shedding of loose fibres will occur with a new rug (do not use a rotating or brush head on the vacuum cleaner). Due to the deep colour of parts of this product, some colour transfer may be experienced, avoid use on light coloured surfaces without an underlay.

Promptly clean spills by blotting with a clean, undyed cloth. Do not dry clean or use harsh chemicals that could damage or fade your rug. Never fold your rug for storage or keep in an airtight bag. Avoid direct or continuous exposure to sunlight and rotate your rug to promote even wear. Professional cleaning is recommended on occasion to ensure the long life of your rug.

Please refer to our website for more information: [armadillo-co.com](http://armadillo-co.com)

### manufacturing variations

**Size** - Can vary by +/- 3%.

**Colour** - Rugs are primarily made from natural and undyed fibres. Every effort is made to ensure there is minimal colour variation however some variation can be expected. This rug is designed for gradations in colour to be visible in the pile. Not all samples will display the range and depth of shading in a full-sized rug.

**Shedding** - Natural fibre rugs will initially shed loose fibres, which can be hastened by regular vacuuming.

**Pop-ups** - Due to the nature of weaving, there will be short fibres popping up while the rug settles. These can be trimmed.
