

March 19, 2020

As COVID-19 continues to impact our communities, we at Industrial Power & Control want to assure all stakeholders that the health and safety of our staff, their families, and our loyal customers is our top priority.

We continue to assess the situation amongst all our suppliers to be prepared in the case of any potential disruptions, which we currently believe would have a minimal impact. Please do not hesitate to contact us via the contact information at the bottom of this statement if you have any questions or concerns about specific products or manufacturers.

Presently, our sales and administrative team are all working remote, meaning our front office is closed, however our warehouse remains open and functioning as usual. The sales staff is available during regular business hours to answer any phone calls and process orders like normal (including www.crane-controls.com and www.ipandc.com orders). Moreover, we are continuously monitoring statements being released by the World Health Organization and Centers for Disease Control and Prevention to corroborate a safe work environment for our staff. To add, we have set up sanitation stations and are encouraging any sick staff to stay home.

We would like to thank you for your understanding during this time and will continue to provide any updates regarding our business operations as we continue to monitor the situation.

Best wishes,

Allan Boznar
