

IMPORTANT - PLEASE READ

Some pre-existing physical conditions may increase your risk of injury while taking part in freedive/breath-hold activities. Because of this, International Training (ITI), has developed the following medical questionnaire to make you aware of these conditions. Failure to address these conditions with a doctor prior to engaging in freedive breath-hold diving activities may endanger your safety as well as the safety of any person you may dive with.

MEDICAL QUESTIONNAIRE

Participant's full name (print) _____
Last / Family / Surname First / Given Initial

Instructor(s) name (print) _____
Last / Family / Surname First / Given Initial

Please read each question carefully and answer it by checking either YES or NO. Please explain any "yes" answers in the space provided at the bottom of this questionnaire. This form and your answers will be kept confidential. A positive answer will not necessarily exclude you from participating in ITI endorsed activities/events/competition, but a positive answer requires you to review this form with a physician to obtain their assessment and clearance for you to participate in any in-water activities.
