

Please follow unstructions below to download the software.

Prior to downloading / installing the IDC5 software <u>PLEASE ENSURE YOUR COMPUTER HAS</u> <u>COMPLETED ALL WINDOWS UPDATES AND RE BOOTED PRIOR TO INSTALLING DOWNLOAD</u> <u>MANAGER AND THE IDC5 SOFTWARE.</u>

<u>Also ensure you have no other programs running during install – especially other specialist</u> <u>diagnostic or ecu/flashing software.</u>

Please ensure you do not have any free bundled antivirus running during installation, particularly Norton/Kaspersky/McAfee. We that most paid antivirus systems are extremely intrusive and can affect software and pc performance. You will need to PAUSE/stop antivirus, firewall, internet security etc etc for the duration of the download/install. Turning off until re boot will not work.

If you feel the need to use anything other than windows defender, AVG free is a free antivirus, is more than adequate and will not affect programs or PC performance.

Download manager is the program you need to then be able to download the actual IDC5 diagnostic software.

To download the download manager software, click the link below. PLEASE USE MICROSOFT EDGE

INTERNET BROWSER.

Download Manager (servicecode.net)

Select install program.

Download TEXA's software easily, quickly and safely with DOWNLOAD MANAGER.			
INSTALL PROGRAM	3

DOWNLOAD MANAGER is the new application developed specifically by TEXA to make the procedures for downloading diagnostic software quicker, easier, and even more protected. It allows you to view all the software available and, with the help of the guidelines directly available on the program, the user is guided through the procedure without any risk of error.

Once this is downloaded and installed, open this program using the icon on your desktop.

or

The program may already be open after installation, so please also check

your task bar for the icon.

Follow any on screen prompts to complete installation.

NOTE the information window below will be shown to you. PLEASE READ IT!

(We recommend temporarily deactivating the protection systems of the PC (antivirus, firewall, spyware removal tools).					
i	Please note: the following operations may require the system to be rebooted once or various times. In case of malfunctions make sure you have rebooted the system.					
Δ	To complete the installation correctly, don't interrupt or cancel the processes that will be started.					
Ę	If you are using a notebook/laptop we recommend connecting it to the mains.					
×	We recommend removing all the HW protection keys connected to the PC, not used by the software					
	Do you wish to proceed with the installation?					
	YES NO					

Once install is complete, you will see the page below.

TEXA	S				
Environr	ment				
ę	ର	c	우운	56	50
c	AR			ВІКЕ	MARINE
Service					
\$	ب ب	<u>í</u>	TEXA APP	my TEXA	
Set	ttings	Update check	TEXA APP	myTEXA	

Click on your software module, bike or marine, the below window will be shown.

Scroll down the page, tick the 2 check boxes, then press the green button.

This will complete your installation.

Once installed, you may then need to re-set up your <u>TXB bluetooth or usb connection</u>. If this is needed you will be prompted to this procedure automatically when using the system.

If you require assistance, please download and install team viewer, free version for personal use.

www.teamviewer.com

This will allow us to remotely assist if required, with your permission only.
