OUR OGS

RECYCLED LEATHER COLLECTION

The core of our collection. They are the ones that have been with us since the very beginning and they don't seem to be going away. Labienhecha icons (and the best sellers). We produce them with recycled leather from a local supplier certified with Global Recycled Standard and Oeko Tex Leather Standard.

DISCOVER

THEY NEVER MISS

WHO ARE WE?

ABOUT LABIENHECHA

We are a team of women making (well-made) things in a workshop in Malaga and working along three lines of action: creating a quality, local and ecological product; raising awareness about sustainability and, on the other hand, empowering the female role in entrepreneurship and in life in general.

What makes us most proud of our project?

- 100% handmade, local and ecological product.
- Made in Spain, in our workshop, in a responsible and ethical way.
- Top quality sustainable materials, always certified
- We empower female entrepreneurship

HOW DO WE DO IT?

OUR WORKSHOP DISCOVER

Everything we make is produced in our own workshop, with our own hands - in an artisan and honest way - trying to damage our environment as little as possible, striving to keep tradition alive and, of course, with tons and tons of love.

At Labienhecha we take care of everything. When we say everything, we mean EVERYTHING. From the idea to the design, the making of the bag, the marketing, the commercialisation, administration... Everything!

HOW DO WE DO IT?

SUSTAINABLE PRODUCTION

We believe that nothing is 100% sustainable, but that with small acts and our decisions as a brand, we can reduce our negative impact and foster a culture around sustainability.

We consider all perspectives on sustainability (economic, environmental and/or social and labour). Therefore, we want to advance in our own R&D, working with other sustainable and certified materials, offering other alternatives, expanding our knowledge, improving our resources to achieve better results, optimising our workshop and always aiming to damage our planet as little as possible.

HOW DO WE DO IT?

OUR MATERIALS

At Labienhecha we strive to research materials that meet our high requirements in terms of sustainability. That is why we only work with eco-friendly, durable, quality materials that are environmentally friendly and have the least negative impact. These are the main materials we work with:

VEGAN BIOMATERIAL

RECYCLED LEATHER

ORGANIC COTTON
