

Shark Tooth Identification Game

Ages: 5+ | Players: 2-6 | Time: 10-15 min

How to Play:

1. Study the **Shark Tooth Identification Guide**.
2. Each player draws one card. The lowest card goes first (aces are low). Randomly place those cards back in the deck. Play continues in a clockwise direction.
3. Deal the entire deck evenly between all players, keeping the cards face down.
4. Each player places one card face down in front of them.
5. The player whose turn it is reveals only their card.
 - If the card revealed is a shark tooth, the first player to correctly identify the tooth collects all of the cards for that round.
 - If the card revealed is a face card (a shark), the first player to slap the pile collects all of the cards for that round.
 - If there is a tie (two players call the name of the shark tooth at the same time) OR an ace appears, all players place an additional card in the same manner as the previous card played.
6. Players keep their collected cards in separate piles.
7. The player with the most cards at the end is the winner.
