Care & Maintenance**Leather**

It is recommended to lightly wipe leather with a clean soft cloth on a weekly basis to prevent dirt and dust build up.

For longevity, avoid direct sunlight as prolonged UV exposure may change the colour of your leather. Do not place leather items close to heaters.

It is best to not place leather items in very hot/dry rooms as it will lose its moisture.

For any difficult stains it is recommended that they are removed by professional cleaners and that an annual conditioning is done. If a professional cleaner is not available at short notice treat the stain with a diluted leather cleaning soap (please contact us for recommendations before using anything) and make sure to wipe a larger area to prevent any patchiness.

Water based stains or light spills should be treated as soon as possible by gently dabbing with a dry cloth. Avoid rubbing the surface or using chemical cleaners or scrubs. Allow the leather to dry out of direct sunlight completely before use.

Please follow any specific instructions provided with your item as it may vary depending on your leather.

Plastic

Clean surfaces with a damp, lint free, non abrasive cloth and then wipe dry after cleaning. Ensure all cleaning solutions do not contain any bleaching agents, abrasives or solvents. Make sure to test on underside or non visible surface of the product first to ensure cleaner is compatible with material. Ensure that all the cleaning solution is wiped off the surface and is not allowed to sit for any extended period of time.

For intricate surfaces/textures and it is recommended that product is lightly dusted using a static duster. A bristled vacuum cleaner attachment may also be used. Any lighting products should be removed from fixtures before cleaning.

End of Life

A DesignByThem product can be returned to us at the end of its useful life for reuse or recycling as part of our product stewardship program. We will ensure that the product is recycled in its entirety without any material contributing to landfill.

Note

Product specifications are subject to change after date of print at the discretion of DesignByThem. Before placing any orders please confirm all finishes and dimensions with DesignByThem.
