

# Confetti Modular Lounge

**DESIGNED BY**

Sarah Gibson & Nicholas Karlovasitis

Confetti Modular Lounges are made to configure to your space. Available as separate modules in 16 different shapes with varying sizes on 3 different base options – 100% recycled plastic, upholstered or low-profile feet bases.

---

**MATERIAL**

Upholstery, low VOC commercial-grade green star rated foam.  
Base - 100% recycled plastic\* or upholstery or plastic glides.

**ADDITIONAL OPTIONS**

In-built power and data port options available.

**WARRANTY**

5 year warranty based on observance of product maintenance procedures. Excludes fair wear and tear, improper use or vandalism. For full warranty terms please see last page.

"We wanted to create a range of lounges that were visually bold, inviting and playful. We always felt that the signature speckled recycled plastic of the Confetti range was a fun material and wanted to celebrate this."

- Sarah Gibson & Nicholas Karlovasitis, designers.

## Base Options

The Confetti Modular Range is available with three different base options to best suit the aesthetic of your space. Choose from the image guides below.

### CONFETTI 100% RECYCLED PLASTIC

Made completely from post-consumer and factory waste with no additional adhesives. This base option is highly durable, waterproof and adds a textural aesthetic with a sustainably sourced material.

Please note that the appearance of recycled plastic varies slightly in colour and patterns due to its 100% recycled nature, however, we try our best to keep batches cohesive.

### UPHOLSTERED

Keep it soft top to toe with the Upholstered base option. Match the material used on the body, opt for black vinyl for easier maintenance or customise with a different material of your choice.

### LOW-PROFILE FEET

For a lower and more casual option, choose Low-Profile Feet made from subtle black plastic glides for the base of your Confetti Modular Lounge.

# Modules & Measurements

## Confetti Modular: Confetti Base

---

Base Material: 100% Recycled Plastic

This base option is made completely from post-consumer and factory waste mix with no additional adhesives. The Confetti Recycled Plastic is highly durable, waterproof and adds a textural aesthetic with a sustainably sourced material.

Please note that the appearance of recycled plastic varies slightly in colour and patterns due to its 100% recycled nature, however, we try our best to keep batches cohesive.

**CARE & MAINTENANCE**

**Fabric**

It is recommended to lightly vacuum fabrics with a brush attachment on a weekly basis to prevent dirt and dust build up.

For best colour longevity, avoid direct sunlight as prolonged UV exposure may change the colour of your fabric (please refer to your specific fabric specification for UV resistance rating).

For any difficult/non water based stains it is recommended that they are removed by professional cleaners and that an annual cleaning is done.

Water based stains or light spills should be treated as soon as possible by gently wiping/dabbing with a damp cloth wrung in a mild solution of water and washing detergent. Avoid using chemical cleaners or scrubs. Allow the fabric to dry out of direct sunlight completely before use.

Please follow any specific instructions provided with your item as it may vary depending on your fabric.

**Leather**

It is recommended to lightly wipe leather with a clean soft cloth on a weekly basis to prevent dirt and dust build up.

For longevity, avoid direct sunlight as prolonged UV exposure may change the colour of your leather. Do not place leather items close to heaters.

It is best to not place leather items in very hot/dry rooms as it will lose its moisture.

For any difficult stains it is recommended that they are removed by professional cleaners and that an annual conditioning is done. If a professional cleaner is not available at short notice treat the stain with a diluted leather cleaning soap (please contact us for recommendations before using anything) and make sure to wipe a larger area to prevent any patchiness.

Water based stains or light spills should be treated as soon as possible by gently dabbing with a dry cloth. Avoid rubbing the surface or using chemical cleaners or scrubs. Allow the leather to dry out of direct sunlight completely before use.

Please follow any specific instructions provided with your item as it may vary depending on your leather.

**Plastic**

Clean surfaces with a damp, lint free, non abrasive cloth and then wipe dry after cleaning. Ensure all cleaning solutions do not contain any bleaching agents, abrasives or solvents. Make sure to test on underside or non visible surface of the product first to ensure cleaner is compatible with material. Ensure that all the cleaning solution is wiped off the surface and is not allowed to sit for any extended period of time.
