

Instructions

Please read all instructions before installing Dial Hose Hanger.

1. For a masonry/brick wall: First install 2 wall plugs per its instructions, 150mm apart vertically, at desired height.

For a timber wall: Drill 2 pilot holes into the wall, 150mm apart vertically, at desired height.

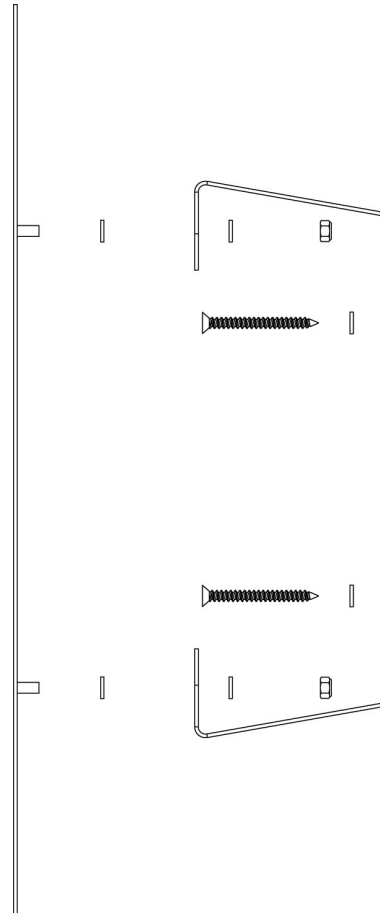

For a plasterboard wall: First install 2 plasterboard anchors, 150mm apart vertically, at desired height.

Using the supplied screws and washers secure the bracket to the wall.

2. Place a washer over each of the threaded studs on the back of the hanger circle - align with holes on the bracket.

3. Push threaded studs through these holes, and secure in place with supplied washer and nut.

Your Dial Hose Hanger is now ready to use, enjoy!

Dial Hose Hanger

Dial Hose Hanger is a clean and playful garden hose hanger. Its fun oversized dial keeps the hose tidy whilst adding colour to the garden or courtyard.

Dial Hose Hanger can conceal a standard 30m length hose.

Designers

Nicholas Karlovasitis
& Sarah Gibson

Year

2014

Materials

Powder coated stainless steel

Designers

Nicholas Karlovasitis and Sarah Gibson during university and formed DesignByThem in late 2006.

Since establishing DesignByThem they have gone on to work with a diverse range of clients and have produced numerous designs characterised by their innovative use of materials, sustainable practices and ability to combine a sense of fun with clear function.

Designer's Notes

"We loved the idea of playing with scale and colour - its' simple, playful and celebrates the Aussie back yard."

Sustainability

Dial Hose Hanger is designed for product longevity. The base material is rust resistant and the powder coat finish provides another layer of protection which can be recoated later if required.

DesignByThem also offers a product stewardship program whereby products can be returned to DesignByThem to be either repaired, reused or recycled.

DesignByThem

DesignByThem is a Sydney based design brand that brings together and represents the talent of Australian designers through a collection of innovative products and projects.

All products are designed in Australia and produced with environmentally sustainable practices.
