**Care & Maintenance****Timber**

To clean, begin with a gentle wipe with a soft microfiber cloth going in the direction of the grain to remove any hard grains or dirt that may scratch the surface. Wipe with a damp soft cloth using warm soapy water and mild detergent or with furniture appropriate cleaner ensuring to wipe in the direction of the grain.

Always test any new detergent or cleaner on underside or non visible area first a day before to see if there are any adverse effects. Always ensure to completely dry any detergent or cleaner. Avoid steam cleaning, abrasive cleansers, steel brushes/wools and cleaners containing chlorine. Do not allow dirt to accumulate or liquids to dry out and harden. Never use strong solvents to clean surfaces.

For solid timber, light scuff marks or scratches can be repaired using a wipe on polyxoil.
