CARE & MAINTENANCE**Fabric**

It is recommended to lightly vacuum fabrics with a brush attachment on a weekly basis to prevent dirt and dust build up. For best colour longevity, avoid direct sunlight as prolonged UV exposure may change the colour of your fabric (please refer to your specific fabric specification for UV resistance rating).

For any difficult/non water based stains it is recommended that they are removed by professional cleaners and that an annual cleaning is done. Water based stains or light spills should be treated as soon as possible by gently wiping/dabbing with a damp cloth wrung in a mild solution of water and washing detergent. Avoid using chemical cleaners or scrubs. Allow the fabric to dry out of direct sunlight completely before use.

Please follow any specific instructions provided with your item as it may vary depending on your fabric.
