Care & Maintenance**Timber**

To clean, begin with a gentle wipe with a soft microfiber cloth going in the direction of the grain to remove any hard grains or dirt that may scratch the surface. Wipe with a damp soft cloth using warm soapy water and mild detergent or with furniture appropriate cleaner ensuring to wipe in the direction of the grain.

Always test any new detergent or cleaner on underside or non visible area first a day before to see if there are any adverse effects. Always ensure to completely dry any detergent or cleaner. Avoid steam cleaning, abrasive cleansers, steel brushes/wools and cleaners containing chlorine. Do not allow dirt to accumulate or liquids to dry out and harden. Never use strong solvents to clean surfaces.

For solid timber, light scuff marks or scratches can be repaired using a wipe on polyxoil.

Contact DesignByThem for further information.

Powder Coat

Clean surfaces with a damp, lint free, non abrasive cloth and then wipe dry after cleaning. Ensure all cleaning solutions do not contain any bleaching agents, abrasives or solvents. Make sure to test on underside or non visible surface of the product first to ensure cleaner is compatible with material. Ensure that all the cleaning solution is wiped off the surface and is not allowed to sit for any extended period of time.

End of Life

A DesignByThem product can be returned to us at the end of its useful life for reuse or recycling as part of our product stewardship program. We will ensure that the product is recycled in its entirety without any material contributing to landfill.
