

## Weaver Cabinet

**DESIGNED BY**  
Elliat Rich

### MATERIAL

FSC certified solid oak timber shelves and aluminium handles with 2-pack polyurethane finish. Hand-dyed, UV-stable nylon fringe.

### WARRANTY

5 year warranty based on observance of product maintenance procedures. Excludes fair wear and tear, improper use or vandalism.

### WEIGHT

45kg

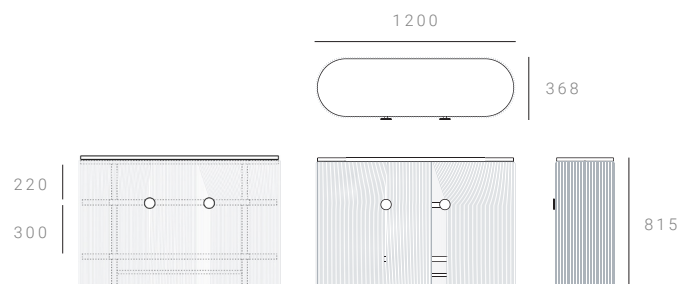

### STANDARD COLOURWAYS

Custom colours and timbers available upon request. Please contact [info@designbythem.com](mailto:info@designbythem.com) to enquire.

### DIMENSIONS

1200 W x 368 D x 815 H mm

**CARE & MAINTENANCE****Fringe**

Fringing should be handled delicately to avoid fraying and pulling. Do not wet, spot clean or vacuum. To remove dust, use a soft static duster, lightly brushing downwards following the drape of the tassels. Gently comb out tangles with fingers, being careful not to tug on strands. Untangle any knots by hand. Avoid using brushes or combs as they may fray the surface.

**Timber**

To clean, begin with a gentle wipe with a soft microfiber cloth going in the direction of the grain to remove any hard grains or dirt that may scratch the surface. Wipe with a damp soft cloth using warm soapy water and mild detergent or with furniture appropriate cleaner ensuring to wipe in the direction of the grain. Always test any new detergent or cleaner on underside or non visible area first a day before to see if there are any adverse effects. Always ensure to completely dry any detergent or cleaner. Avoid steam cleaning, abrasive cleansers, steel brushes/wools and cleaners containing chlorine. Do not allow dirt to accumulate or liquids to dry out and harden. Never use strong solvents to clean surfaces.

**Polyurethane**

Clean surfaces with a damp, lint free, non abrasive cloth and then wipe dry after cleaning. Ensure all cleaning solutions do not contain any bleaching agents, abrasives or solvents. Make sure to test on underside or non visible surface of the product first to ensure cleaner is compatible with material. Ensure that all the cleaning solution is wiped off the surface and is not allowed to sit for any extended period of time. Avoid placing hot or exposed objects directly onto surface to prevent scorch marks and heat damage.
