DL – 210mm x 99mm Artwork Template

Bleed Area: 216mm x 105mm
Extend your background to fill the full 'bleed area' – it'll make sure you don't end up with white edges when your DL artwork is trimmed.

Trim: 210mm x 99mm
This is where we cut your DL artwork.

Safe Area: 206mm x 95mm
Keep all the important bits of your design – text, logo, icons inside this area.

* Not your background that still needs to run to the edges of the bleed.

DO
- Edit and save your file in CMYK.

- Delete the artwork guideline group layer before saving.

DON'T
- Flatten your layers or image before saving. It'll reduce your print quality.

- Add additional bleed or print/crop marks to your files. Just say your file to the size of this template.
