

DL - 99mm x 210mm Artwork Template

Bleed Area: 105mm x 216mm

Extend your background to fill the full 'bleed area' - it'll make sure you don't end up with white edges when your DL artwork is trimmed.

Trim: 99mm x 210mm

This is where we cut your DL artwork.

Safe Area: 95mm x 206mm

Keep all the important bits of your design - text, logo, icons inside this area.

* Not your background that still needs to run to the edges of the bleed.

DO

- Edit and save your file in CMYK.
- Delete the artwork guideline group layer before saving.

DON'T

- Flatten your layers or image before saving. It'll reduce your print quality.
- Add additional bleed or print/crop marks to your files. Just say your file to the size of this template.
