

Model: 55/4704

Mattress		Pump	
Mattress Type:	Cell Type	Dimension:	L250 x W125 x H85 mm
Dimensions:	L200 x W85cm	Voltage:	230V
Height:	4" (10cm)	Weight:	1.4kg
Material:	Nylon + 0.2mm TPU Film	Air Output:	8 litre/min \pm 10%
No. of Cells:	16	Pressure Range:	40 ~ 90mm/Hg
Cover Material:	Ny70D / 0.015 TPO Film	Cycle Time:	9.6min/60Hz
Function:	Alternating	Alternating Mode:	2 sections
		Weight Capacity Range:	40 - 140kg

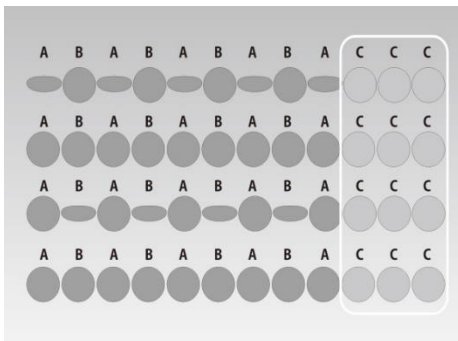

Adjustable hangers suitable for most bed end panels

Weight indicator reference to facilitate optimized pressure setting

Extension flaps can be tucked under the standard mattress for stabilisation

Pillow function with 3 tubes design to simulate as a head pillow to allow user to have a non-movement head support

Vapor permeable and water resistant with basic flame retardant level.

Water Resistance

Flame Resistance

Biocompatibility

Vapour Permeable

Features

- Alternating function
- Easy to use system to provide effective support
- 4" height with pillow function for non movement head support
- Individual cell mattress
- Cost effective mean for low to medium risk of developing pressure ulcers
- Low energy consumption
