

**Model: 10/8130 &
99/DCM/7008**

| | |
|-----------------------------|--------------------------------|
| Inner Width: | 17" (43.1cm) |
| Overall Width: | 25" (63.5cm) |
| Overall Length: | 18" (45.7cm) |
| Folded Size (WxLxH): | 20"x4.3"x31" (51x11x78.7cm) |
| Weight Capacity: | 100kg |
| Product Weight: | 2.1kg |
| Country of Origin: | China |
| Height: | 31"-38" (78.7-96.5cm) |
| Castors: | 5" |

Features

- Made of lightweight aluminium grade 6000
- Foldable for easy storage and transportation
- Single centralized locking pin for easy folding
- High-density PVC handgrips

With the 5" front castors attached with the walking frame, the user may push the walker ahead as opposed to picking it up. This makes for easier use of the walker, as it does not require the user to use their arms to lift the walker.

This is beneficial for those with little arm strength.
