The Sunlift Midi hoist (150 kg) is easy to handle and suitable for both home and residence use. It is easily dismantled for storage and transport, and meets the latest European safety standards.

Safety Spreader Bar. This features a non-slip coating and cross-over hook design to prevent the harness strap working loose. The anchor point to the boom is also covered so that users cannot catch their fingers in it.

Highly rigid structure. The model features exceptional rigidity thanks to the advanced design of all the moving connections, eliminating play and offering a rigid feel with the hoist fully loaded.

Ergonomic pushing handle. Ergonomic push handles for easier handling of the hoist from different attendant positions. Covered by a coat of paint very pleasant to the touch, easy to clean and hygienic.
