# WALL/CEILING/SHELF/PICTURE STAND FIXINGS

A simple solution to Point of Sale and display shelving.

This unit will hold an glass or acrylic shelf up to 8mm thick.

The fixing is 25mm diameter with an 8mm jaw and two nylon tipped grub screws to grip the shelf. Easy to install and with a 40mm length supporting lower jaw, these will hold a shelf up to 200mm in depth and any length.

Specifically developed by client demand. These fixings are designed to turn a printed or sandwiched acrylic display into a free standing unit. The long fixings, used at the base provide a stable platform and the short fixings, used at the top provide an aesthetically balanced finish and, where required, close the sandwiched acrylic tightly.

## SHELF SUPPORT

# EASY FIT DESK DIVIDER CLAMPS PERSPEX SCREEN FIXINGS

Easy Fit Desk Divider Clamps

£7.80 each

Price is per single clamp, a minimum of 2 clamps are required to secure an acrylic panel

Easy fit perspex screen clamps provide a fast and tool-free way to secure clear acrylic screens between desks or on countertops.

- Price is per single item - 2 required to grip panel
- Desk screen clamps can take a panel thickness of between 3mm - 10mm
- Desk thickness from between 10 - 40mm
- An overhang of at least 50mm required to secure
- Manufactured in aluminium material
- Brushed aluminium finish
- Can be used to fix a range of rigid panels including acrylic, plywood and toughened safety glass as the clamps are lined with soft EVA foam to help grip and protect the surface
- No tools required to fix clamps and panels
- Easily removed and repositioned

Desk divider clamps make easy work of creating social distancing screens across a table, desks and counters (panels not included).
