

Arredo.

Will my furniture fit?

Take a look at our guide and tips below!

The last thing we want is that when you order your furniture, it doesn't fit! Check our quick tips below to make sure you get the right fit for your room

- 1) All of our sizes are in the product description. Remember, these are the product sizes and not the packaged sizes
- 2) Please add 10-15cm on each size to allow for packaging and the boxes they come in
- 3) Remember to measure not only your room and space where you want it, but also the doorways, hallways and stairs
- 4) Our drivers aren't always able to do room delivery – therefore make sure that you can bring your furniture into your room from your main door with some help on the day of delivery
- 5) If you've measured and think it's a tight fit, double check and drop us an email – we'll come back to you incredibly quickly with all the info you might be stuck with – info@arredo.co.uk is where to catch us

If it doesn't fit after it's been delivered – remember keep it in its box and let us know – we will return it and help you find the right item that fits the bill for you. Just let drop our customer service team an email at info@arredo.co.uk and they will help you right away!
