

Description

CROWN, Top, 3/4" x 5-1/4"

W&H Item #

2089-T

Printing may distort actual profile measurement. Print in "Actual Size", outer border should measure 8" x 10-1/2"

When using both W&H Top & Bottom profile knives, cut the bottom (angle) profile first. The opposite applies if using a table saw for the back angle cuts. Cut the top profile on the molder and then cut the angles on a table saw.
