

Wireless Home Automation Control Smart Meter ON/OFF Dimmer Switch with Interchangeable Face Cover

Model No: ZW500DM-PLUS

Description

The ZW500DM-PLUS by itself is a Single Pole Dimmer switch. Our unique wiring method combined with Advanced Z-Wave technology allows for multiple switches (requires ZW3K-N) to control a single Load manually at the devices or remotely from a computer, smart phone or tablet in Real Time. The ZW500DM-PLUS is fully compatible with other Z-Wave devices and it can be added to most ZWave compliant controllers. A simple way to modernize your home by adding programmable lighting control to your smart device.

The ZW500DMPLUS Smart Meter Switch enables you to measure the energy usage of your Lights. ZW500DM-PLUS reports real time data to your gateway or controller. It can also display actual consumption (in W) and the accumulated power used (in kWh).

Features

- Perfect replacement for regular light switch, 120VAC, 15Amp.
- Z-Wave Plus products are fully backward compatible.
- 67% improvement in range and 250% more bandwidth.
- Wireless Z-Wave Plus technology mesh network for command and control interoperability with other Z-Wave compliant controllers.
- Manual and Remote ON/OFF control.
- Smart meter gives you real time energy usage.
- Reduce energy consumption and enjoy Wireless Home Automation.
- Enhance the value and technology of your home.

Specifications

Included 3 covers	White, Light Almond, and Black
Voltage	120VAC, 60Hz
Max Load	500W Incandescent, Dimmable LED and CFL suggested 25w minimum load
Signal Frequency	908.42 Mhz
Range	Up to 100 feet in open-air and line of sight distance, depending on obstacles and blocks
Terminations	Line, Neutral, Load, traveler, and Ground
Operating Temperature	32°F – 104°F (0°C -40 °C), Indoor Use
Warranty	2 Years

Standards & Compliance

Z-Wave Certified, FCC Part 15, Class B
UL, CUL Listed
