THE IMAGE “AGE LATER” PROGRAM

Is an easy 3-step program

STEP 1 DIET

Follow IMAGE's daily recommended ingredients of:

- AHAs/BHAs
- Retinols
- Peptides
- Plant Stem Cells
- Brightening Agents
- Antioxidants
- SPF Moisturizers
- Advanced Delivery Technology

STEP 2 EXERCISE

The skin needs a personal trainer to get it to a healthy level. A series of 6 professional resurfacing treatments is needed every 2 weeks.

STEP 3 MAINTENANCE

The skin cells turn over and build up every 28-40 days, depending on age. Therefore, a maintenance resurfacing treatment is recommended every month to six weeks for optimal skin health.

CLINICAL ASSESSMENT OF THE SKIN

SKIN IS THE WINDOW TO THE BODY'S OVERALL HEALTH

Learning about individual skin types and conditions is one of the most interesting aspects of skincare. It is never boring because every face is unique. Clinical skin assessment is the most important part of a clinical esthetician's skills since recommending the appropriate skincare products and treatment program must be individualized to suit each person.

SKIN TYPES ARE GENETICALLY DETERMINED

People are born with their skin type. Genetics and ethnicity determine the type of skin they have.

SKIN CONDITIONS ARE DETERMINED BY AGE, PRODUCTS USED AND LIFESTYLE

Dry, Normal, Combination, Oily, and Sensitive are everchanging in a client's lifetime.

STEPS TO A SUCCESSFUL CONSULTATION AND ASSESSMENT

1. SKIN HEALTH QUESTIONNAIRE

- Age – the higher the number, the more aggressive the treatment plan
- Smoker – must add antioxidants first
- Medications- hormones most important
- Stress - higher than a 5, antioxidants key in program

The effects of stress on the skin

- Sallow Complexion: Stress sends the body into survival mode by directing most of the blood to the vital organs such as the heart, lungs, and brain. This means less blood goes to the skin, which leaves you looking washed out.
- Acne: Cortisol causes the secretion of androgen, a sex hormone that increases oil production. Excess production in sebum means clogged pores, which then leads to acne.
- Rough, Dry Skin: A restricted blood supply to the skin means the cells renew themselves less quickly, leading to dry, flaky skin.
- Inflammation: When your body is stressed it often releases histamines, which can cause irritations like itchiness, bumps, rashes, and hives.

Water - The key to living and healthy skin. Very easy conversation about the importance of drinking a minimum of 64 ounces of water daily. Fitzpatrick Type - the higher the number, the higher the risk for complications - must pretreat skin properly for 2-4 weeks.

The first form, 'RECOMMENDED SKINCARE ROUTINE', includes fields for NAME, DATE, and SKINCARE SPECIALIST. It lists product categories: CLEANSER, SERUM, PREVENTION+, NIGHT CRÈME, ADD-ONS, MASQUE, EYE TREATMENT, and SPECIALTY. The second form, 'PROFESSIONAL TREATMENT SERIES RECOMMENDATION', lists various treatment series like 'smoother lift', 'signature facial', 'lightening lift', 'wrinkle lift', 'signature lift', 'advanced BHA lift', 'perfection lift', 'OF lift', and 'IMAGE facial'. It includes a section for 'TREATMENT' with fields for DATE and a 'NOTE' section.

Utilize our IMAGE RECOMMENDED SKINCARE ROUTINE pads to guide you in selecting the properly prescribed custom daily regimen for your clients.

The 'CONFIDENTIAL SKIN HEALTH QUESTIONNAIRE' includes personal information, stress levels, water intake, allergies, and skin concerns. It features a Fitzpatrick skin type diagram and a treatment plan section with checkboxes for various products like 'smoother lift', 'signature facial', 'lightening lift', 'wrinkle lift', 'signature lift', 'advanced BHA lift', 'perfection lift', 'OF lift', and 'IMAGE facial'. It also includes a signature and date line.

2. CONSENT FORM

This is mandatory for every clinical treatment performed which may incur the risk of a complication. If you are ever involved in a lawsuit, and you do not have a signed informed consent, you will not be protected by the manufacturer or by the law.

The following must be verbally highlighted:

1. Type of treatment
2. Post Treatment instructions
3. Review of all checklists being signed

Reviewing this information upfront will decrease the number of phone calls to your office from peeling or non-peeling patients. An educated patient is always a happier patient.

3. ONGOING CHARTING

As the patient progresses with ongoing visits, notes should be taken at every visit. Again, from a legal standpoint, it is mandatory to have a record of the visit and what was performed. These notes can be very simple.

An example of Progress Note:

MM/DD/YY

Jane Smith

3rd Chemical Peel

Consent signed. Photos taken. No changes since last visit 2 weeks ago. An IMAGE Wrinkle Lift Peel performed. Followed Image Treatment protocol. 5 minutes left on the skin. Patient activity level 4 out of 10. No complications. Tolerated treatment very well. Recommended ILUMA intense lightening serum BID. Agreed

Products Purchased: ILUMA intense lightening serum, AGELESS total facial cleanser, PREVENTION + daily hydrating moisturizer SPF 30, the MAX™ stem cell crème

Follow up in 2 weeks.

YANA™

daily collagen shots

THE BENEFITS OF COLLAGEN

YANA™ is a revolutionary, highly concentrated beauty liquid that helps to rebuild and strengthen skin by boosting the body's natural collagen production. YANA™ offers a new approach to skin health utilizing patented bioactive collagen peptides that are clinically proven to:

THE SECRET TO YOUTHFUL SKIN

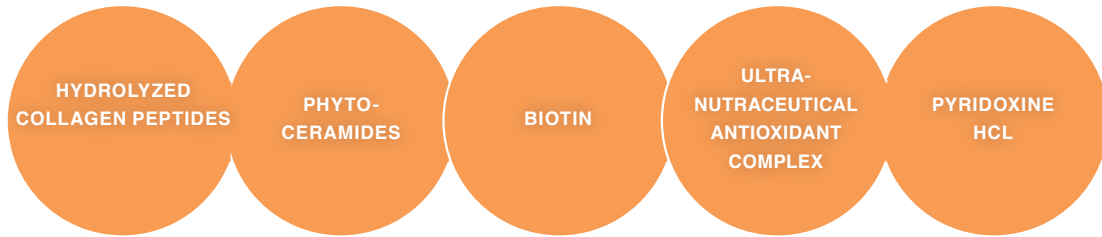

ARE YOU BATTLING WITH AGING SKIN?

After the age of 25, we begin losing collagen at a rate of 1% per year. This means the average person has lost almost half of the collagen in their skin by the age of 50.

AGE GROUP	30-40	40-50	50-60	60-70	80-90	90+
APPROXIMATE COLLAGEN LOSS	15%	30%	45%	60%	75%	90%

EXPERIENCE THE YANA™ DIFFERENCE

LUMIPLEX™

A unique fusion of advanced technologies, delivering five powerful restorative compounds into the skin for incredible Age later® results.

YANA™ is the first highly concentrated beauty liquid in the professional spa industry that allows for maximum effectiveness in small daily doses. This revolutionary beauty liquid works in conjunction with professional topical skincare for ground-breaking results. Delicious citrus flavor tastes great by itself or blended with water, smoothies, teas and more.

YANA™

daily collagen shots

WHAT MAKES YANA™ DIFFERENT IS THE TECHNOLOGY BEHIND ITS UNIQUE FORMULATION

HYDROLYZED COLLAGEN PEPTIDES

Highly effective peptides slow the loss of collagen while simultaneously increasing the body's natural ability to produce more. In clinical studies, this bioavailable form of collagen has been shown to reduce wrinkle volume, increase elasticity and boost the skin's hydration levels in as little as one week.**

PHYTOCERAMIDES

Lipids support the skin's cellular matrix, contributing to increased firmness and hydration.*

BIOTIN

Often referred to as the beauty vitamin, biotin protects the skin against water loss and damage from the harmful rays of the sun.*

ULTRA-NUTRACEUTICAL ANTIOXIDANT BLEND

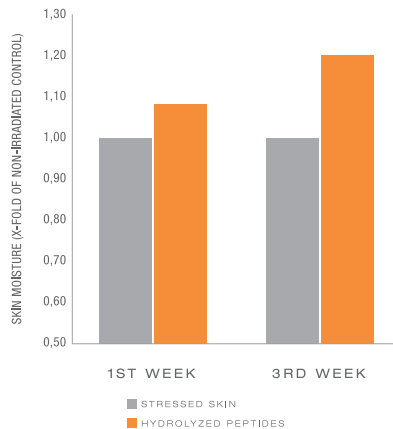

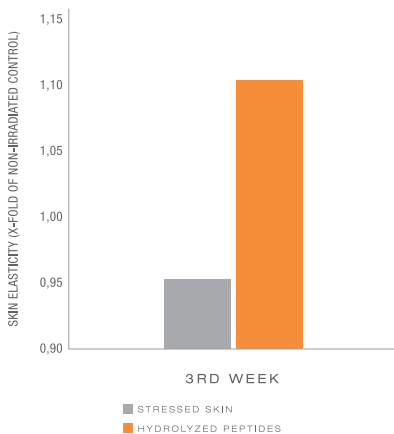

The unique blend of hyaluronic acid, green tea leaf extract, organic acai juice and organic pomegranate extract in YANA™ offer a super antioxidant complex that supports skin strength and hydration while preventing DNA damage caused by free radicals.*

PYRIDOXINE HCL (VITAMIN B6)

Pyridoxine, a unique form of Vitamin B6 found in YANA's proprietary blend, helps maintain the condition of the skin by combating the damaging effects of protein degradation involved in normal aging. Pyridoxine also helps in treating a number of skin problems, including eczema, acne, dry skin and psoriasis.*

CLINICALLY PROVEN RESULTS

Significantly increased skin elasticity by up to **15%** and skin moisture by up to **40%** in just 3 weeks.**

AGELESS

REPLENISHING | RENEWING | REWINDING

A collection of age-defying formulas that help to
improve visible signs of aging

AGELESS

total facial cleanser

available

6 fl oz retail
12 fl oz professional
0.25 fl oz sample

product

This number-one recommended cleanser within the IMAGE Skincare® protocols gently revitalizes and exfoliates as it cleanses. An age-defying cleanser that jumpstarts exfoliation and gently revitalizes to reveal smoother skin. Clients will enjoy clean, smooth skin with the refreshing sensation of menthol.

skin type

All skin types especially aging.

benefits

- Glycolic-based cleanser that gently exfoliates for renewed skin clarity and radiance
- Helps to decongest clogged pores and promote overall clarity
- Refreshes and cools the skin
- Preps the skin for better results from serums and crèmes

directions

Massage a liberal amount onto wet skin and rinse with lukewarm water, followed by a cold splash. Repeat if desired for additional exfoliation. Use morning and evening for best results.

pro tip

- Use this cleanser to prep skin in the treatment room and as a second cleanse with added exfoliation after ILUMA® intense brightening exfoliating cleanser.
- Use on elbows and knees for added exfoliation to soften and brighten those rough spots.

wrinkle smoother

product

Smooth things over with our groundbreaking serum that combines a wrinkle-fighting peptide, high-tech lifting polymer and plant stem cell technology to reduce the appearance of wrinkles.

skin type

All skin types. Forehead lines. Crow's feet. 11 lines.

benefits

Wrinkle-smoothing precision with an advanced peptide that targets wrinkle formation pathways to smooth the look of forehead lines, crow's-feet and the 11s. Nutrient-dense plant stem cells derived from sweet iris help to provide a visible tightening effect. A transparent lifting polymer creates a second-skin smoothing effect on wrinkles, pairing with plant stem cells that firm the skin's appearance.

available

0.5 oz retail
2 oz professional
0.10 oz sample

directions

Pat onto cleansed skin in the morning and evening, focusing on expression lines on the forehead, between the eyebrows and around the eye area.

pro tip

Apply over your favorite eye crème for additional targeted hydration. Use in conjunction with injectable treatments to support long-lasting results.

key ingredients

Acetyl hexapeptide-1	A wrinkle-fighting peptide that targets wrinkle formation pathways to help defend against visible expression lines.
Sweet iris	An aromatic sacred plant that is shown to help firm and boost the appearance of lax skin.
Caesalpinia spinosa fruit extract and kappaphycus alvarezii (red algae) extract	A unique plant-derived polymer that creates an invisible, mesh-like network to visibly reinforce and lift the skin.

ingredients

the MAX

contour gel crème

product

This contouring gel-crème defies the visible effects of gravity, restoring the look of firmness and volume to the lower face. Feel the moisture-melting effect as skin becomes less vulnerable to visible sagging, thanks to key peptides that lift and plump its appearance.

skin type

All skin types. Nasolabial folds. Marionette lines. Facial sagging. Drooping jawline.

benefits

An anti-gravity peptide lifts and firms the skin's appearance. A lipo-filler helps to counteract the appearance of sagging and redefine the appearance of facial contours. Nutrient-dense plant stem cells derived from iris and orchid flowers help to restore facial firmness. The instant moisture-melting effect releases nourishing oil microdroplets that plump up the appearance of lax skin.

directions

Apply to cleansed skin in the morning and evening. Massage into the cheeks and jawline using an upward motion.

pro tip

Alternate with a retinol product to support the appearance of skin firmness without excessive dryness. Use under chin area to aid in tightening (can be layered with the MAX stem cell neck lift).

key ingredients

Sodium acetylated hyaluronate	A bioavailable form of HA that offers a flash-filler effect to smooth the appearance of wrinkles.
Acetyl tetrapeptide-2	A specialized anti-gravity peptide that supports collagen and elastin fibers in the skin, resulting in a visible plumping effect.
Sweet iris and orchid stem cells	Derived from unique flower extracts, they help to improve the appearance of tone and elasticity.
Babassu oil	A moisture-rich Brazilian oil that melts onto the skin on contact, providing a softening and smoothing effect.

ingredients

CLEAR CELL

clarifying acne spot treatment

product

This acne spot treatment targets existing acne blemishes while preventing future blemishes, blackheads and whiteheads from forming. The salicylic acid-based formula penetrates pores to eliminate most acne blemishes and help keep skin clear of new acne blemishes. It soothes treated areas[†], minimizes the appearance of redness[†] and helps to reduce the look of pores^{**}. The light gel goes on clear and absorbs easily into the skin for day-to-night wear.

skin type

Blemish-prone, acne, oily.

key benefits

- Formulated with 2% salicylic acid to penetrate pores and clear most acne blemishes, blackheads and whiteheads
- Reduces the number of acne blemishes and helps prevent the development of new acne blemishes
- Helps to reduce the look of pores^{**}
- Helps to soothe treated areas[†]
- Helps to minimize the appearance of redness^{**}

directions

Clean the skin thoroughly before applying this product. Cover the entire affected area with a thin layer one to three times daily. Because excessive drying of the skin may occur, start with one application daily, then gradually increase to two or three times daily if needed or as directed by a doctor. If bothersome dryness or peeling occurs, reduce application to once a day or every other day.

pro tip

Alternate use with the ORMEDIC balancing facial cleanser to treat acneic skin.

active ingredient

Salicylic acid	a beta hydroxy acid that exfoliates skin and penetrates pores to help clear acne blemishes.

CLEAR CELL

clarifying acne lotion

available

Net wt 1.7 oz. retail
Net wt 0.25 oz sample

product

A targeted daily treatment with benzoyl peroxide that penetrates pores to clear most acne blemishes.

skin type

All skin types especially oily, blemish-prone.

benefits

- Helps to clear acne blemishes and allows skin to heal
- Benzoyl peroxide kills acne-causing bacteria to help prevent new acne blemishes from forming

directions

Apply to cleansed skin every morning and evening. If bothersome dryness, irritation or peeling occurs, reduce application to once a day. Skin irritation and dryness is more likely to occur if you use another topical acne medication at the same time. If irritation occurs, use only one acne medication at a time. If going outside, use a sunscreen product like Prevention+. If irritation or sensitivity develop, stop use of both products. Do not use this product if you have very sensitive skin or are sensitive to benzoyl peroxide.

Avoid contact with hair and dyed fabrics which may be bleached by this product.

pro tip

Cocktail with AGELESS total pure hyaluronic⁶ filler to reduce irritation and flakiness

skin type

For post-procedure, redness, sensitivity and/or dry skin

key benefits

- Color-correcting tint and soothing hydration for daily wear and post-care use. Helps to protect against the effects of UV rays and blue light
- Vegan squalane derived from sugarcane moisturizes the skin, helping to support its moisture barrier
- A botanical blend of green seaweed, holy Thai basil and lady's thistle extract helps to soothe the skin
- Water resistant (80 minutes)

available

Net wt. 1.7 oz / 48 g retail
Net wt. 4 oz / 113 g professional
Net wt. 0.25 oz / 7 g sample

directions for use

Shake well before use. Apply generously and reapply as needed. If going out in the sun, apply 15 minutes before sun exposure. Reapply after 80 minutes of swimming or sweating and immediately after towel drying.

pro tip

- For a refreshing, comforting and soothing experience, apply chilled by gently pressing it into the skin and letting it sit on the skin until it warms up. Once warm, activate the skin microcirculation with tapotement over the skin (avoid rubbing the skin). Fantastic for sensitive skin and post-procedure.

DAILY PREVENTION™

protect and refresh mist SPF 40

product

This hydrating dry-oil SPF 40 face mist provides broad-spectrum sun protection while nourishing skin with meadowfoam seed and buriti fruit oils. With a beautiful glow and barely-there feel, it's perfect for sunscreen reapplication over makeup and refreshing UV protection throughout the day. Proprietary, patent-pending XOSM™ Technology enhances the power of antioxidants ectoin, vitamin C and astaxanthin-rich microalgae to deliver comprehensive nourishment and an added line of defense against premature skin aging.

skin type

For active outdoor lifestyles, athletic activities and/or frequent reapplication

key benefits

- Hydrating dry-oil spray that goes on clear and absorbs quickly for a beautiful glow and barely-there feel. Helps to protect against the effects of UV rays and blue light
- Perfect for sunscreen reapplication even over makeup and refreshing UV protection throughout the day
- Meadowfoam seed oil helps lock in moisture to leave skin soft and supple
- Enhanced with buriti fruit oil, an antioxidant-rich blend of vitamins that helps moisturize and give skin a healthy glow
- Water resistant (80 minutes)

directions for use

Shake well before use. Hold container 4 to 6 inches from skin to apply. Spray liberally and spread evenly by hand. Reapply as needed. If going out in the sun, apply 15 minutes before sun exposure. Reapply after 80 minutes of swimming or sweating and immediately after towel drying.

pro tip

- Rehydrate and refresh patchy and cakey foundation by misting throughout the day. In addition to protecting your skin from free radicals and UV radiation, this helps to deliver hyaluronic acid (to hydrate the skin barrier), resulting in a reinvigorated makeup look.

I MASK

SMOOTHING | REPLENISHING | DETOXIFYING

A collection of me-time must-haves to replenish
and recharge depleted skin

I MASK

firming transformation mask

product

A revitalizing and firming mask that hydrates and helps bring skin into balance for a plump, smooth and firm appearance. New technology featuring rare pepper berry extract supports the skin's well-being, helping skin to resist the visible effects of stress and fatigue. Hyaluronic acid promotes hydration, while jojoba beads exfoliate dull skin, leaving it radiant and healthy looking. In clinical tests, 97% of users reported that their skin felt firmer, 90% agreed that their skin appeared revitalized, and 90% reported that their skin looked tighter and toned after one application.

skin type

Stressed & dull skin, fine lines & wrinkles, lack of hydration.

benefits

Supports the skin's ability to resist stress that causes visible signs of aging; draws hydration to the skin; improves the look of tightness and tone; minimizes the look of fine lines; gives a visible tightening effect; energizes and invigorates dull skin.

available

2 oz retail
6 oz professional
0.25 oz sample

directions

Apply a thin layer to cleansed skin and allow to dry for 5 – 15 minutes. Wet fingertips and massage the skin for 1 minute. Rinse with warm water. Use 3 – 5 times a week or as needed.

pro tip

Allow mask to dry on the skin and slough off like a gommage.

key ingredients

Pepper berry extract	Derived from a rare Mediterranean plant, pepper berry contains phyto-endorphins that help to defend against the effects of daily stressors, leaving skin radiant and glowing
Volcanic clays: Bentonite clay	A purifying clay that consists of volcanic ash, a natural source of minerals such as calcium, magnesium, iron and potassium. Helps to detoxify and remove impurities from the skin
Kaolin	A clay rich in kaolinite that helps to detoxify and exfoliate the skin
Oxygenating Complex	Delivers hydration while softening the look of fine lines and wrinkles for a youthful appearance
Jojoba beads	Natural exfoliating microbeads that provide gentle exfoliation of dull skin
Hyaluronic acid	A humectant that can bind up to 1,000 its weight in water to dehydrated skin

IMAGE SKINCARE PRO

microderm exfoliator

available

6 oz professional

product

This exfoliating treatment provides physical, enzymatic and acid exfoliation in a unique gel form. Formulated with bamboo powder and rose quartz micro-crystals to provide the ultimate physical exfoliation. Fruit extracts with enzymatic activity and natural AHAs exfoliate the skin to feel soft and smooth and a menthol derivative provides a clean cooling sensation. Naturally-derived Alpha (AHA) and Poly Hydroxy Acids (PHA) amplify client exfoliation, prepping the skin for the next step in their professional treatment.

skin type

All skin types.

benefits

Retexturizes and helps even skin tone. Helps remove dead skin for a smoother, fresher look. Helps diminish the look of lines, wrinkles and sun-damaged skin. Reveals radiance.

directions

After cleansing, apply 1/8 oz. of MICRODERM EXFOLIATOR with an I SWAB to entire area of treatment. Massage with or without steam for 1-3 minutes and leave on an additional 5 minutes. Remove with tepid water and sponges.

pro tip

Use in facial protocols to provide a microdermabrasion experience without having to use a microderm machine.

key ingredients

Bamboo powder and rose quartz	Physical exfoliants that remove dead skin and help to refine skin texture
Alpha and poly hydroxy acid blend (Malic, Mandelic, Gluconolactone)	Supports exfoliation; helps to enhance the look of a dull complexion and prep the skin for optimal product penetration
Fruit enzyme extracts	Help to slough away dead skin revealing a smooth texture and enhanced radiance
Arnica montana flower extract	Helps to reduce the appearance of redness and soothe the skin
Niacinamide (vitamin B3)	Helps to reinforce the skin's barrier function

PRECAUTIONS (Please read carefully)

The treatment you will receive is a clinical treatment designed to exfoliate or remove the outer layers of the skin.
Your participation in your skincare treatments will determine the outcome. It is important that you strictly adhere to your home care products that your aesthetician has recommended.
No guarantee is expressed or implied as to the precise results, peeling times or discomfort.
During the treatment, you may experience some temporary stinging or warm flushing. This will fade within a few minutes. During the next few hours, you may experience some tightening of the skin, which may last for several days.
For most patients, flaking begins within 48 hours. It is impossible to pre-determine how much peeling will occur. The shedding process usually subsides within 5-7 days.
Depending on the clinical peel performed and your skin quality, the following reactions may occur in some patients:
 1) Prolonged redness, irritation and flakiness 2) Dryness and sensitivity 3) Severe allergic reactions in rare instances

PRE/POST PEEL GUIDELINES

<p>ONE WEEK BEFORE THE PEEL</p>	<ol style="list-style-type: none"> 1) Discontinue any topical prescriptions or any products containing Retinol or Vitamin A 2) Avoid waxing, electrolysis, depilatory creams, and laser hair removal treatments 3) Avoid sun exposure (indoor and outdoor) 4) Do not receive Botox or dermal fillers 5) Do not have another treatment unless recommended
<p>THE DAY OF YOUR PEEL</p>	<ol style="list-style-type: none"> 1) Discontinue all use of alpha hydroxy acid (AHA), beta hydroxy acid (BHA) and benzoyl peroxide 2) Stop any exfoliating products that may be drying or irritating 3) Men - do not shave the day of your peel
<p>IMMEDIATELY POST PEEL</p>	<p>After receiving your peel do not use any skincare products that have not been approved by your licensed esthetician or physician. Your treatment was finished with IMAGE products that are safe to be left on your skin for the evening. You may start your POST TREATMENT KIT the next morning.</p>
<p>DAYS 1-7 AFTER YOUR PEEL</p>	<p>MORNINGS</p> <ol style="list-style-type: none"> 1) Cleanse your face with ORMEDIC® balancing facial cleanser, using warm water 2) Apply ILUMA™ intense brightening serum all over the face to calm and lighten post treatment skin 3) Protect skin with DAILY PREVENTION™ ADVANCED SMARTBLEND MINERAL MOISTURIZER SPF 75, reapply as needed <p>EVENINGS</p> <ol style="list-style-type: none"> 1) Cleanse your face with ORMEDIC® balancing facial cleanser, using warm water 2) Apply the MAX™ crème all over the face for optimal correction, protection and nutrition while the skin is at rest

* **VITAL C hydrating enzyme masque** may be applied 2-3 times during the week to reduce any visible shedding/flaking, while infusing the skin with antioxidants to protect and hydrate.

I PEEL

PRE/POST PEEL GUIDELINES

IT IS CRUCIAL TO THE HEALTH OF YOUR SKIN AND THE SUCCESS OF YOUR PEEL THAT THESE GUIDELINES BE FOLLOWED FOR THE NEXT 5-7 DAYS:

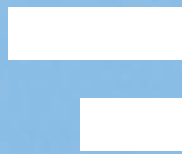

- 1)** Do not do anything that will cause your body to become heated or to perspire. This may lead to inflammation and/or breakout (*Exercise, sauna, hot tubs, etc.*)
- 2)** Always use warm water on your face and do not scrub. Avoid chlorine.
- 3)** You may or may not experience some visual flaking or shedding of the skin approximately 2-4 days post peel. The amount of visual flaking is not indicative of your end results. If heavier shedding is present, do not under any circumstances, pick or manually peel the skin.
- 4)** You must take precautions to avoid sun exposure in order to protect your skin as well as to get the full benefit of the peel. Peels increase your skin's sensitivity to the sun and particularly the possibility of sunburn. Exposure to UV rays can cause hyper-pigmentation, freckling and sun damage. We recommend that you stay indoors as much as possible and a use **DAILY PREVENTION™** daily.
- 5)** Do not use any glycolic, retinol, or Retinol-A for 5-7 days or until your skin is back to normal. This is the reason you are supplied the **POST TREATMENT KIT** providing the proper at home care post peel. You can resume your regular at home IMAGE regimen after the 5-7 days. This time may vary depending on the peel performed and each individual's healing process.
- 6)** For men, do not shave for at least 48 hours after peel.

TO AVOID INJURY TO THE SKIN, FOR THE 10 DAYS FOLLOWING THE PEEL, PLEASE DO NOT:

- peel, pick, scrape or abrade the skin
- have an electrolysis or laser treatment
- use tanning beds or sunbathe
- perform certain hair services using chemicals
- facial wax, thread or use depilatory products
- receive aesthetic injections
- have another treatment until your esthetician advises you to do so

SLIGHT REDNESS OR SWELLING MIGHT OCCUR IMMEDIATELY AFTER THE PEEL. THIS USUALLY GOES AWAY WITHIN 24 HOURS. SOME CLIENTS EXPERIENCE TEMPORARY SKIN DISCOLORATION. YOU MAY HAVE AN AREA OF SCABBING OR CRUSTING IN CASES OF SEVERE SENSITIVITY, THIS IS VERY RARE. IF IT IS BOTHERSOME YOU MAY APPLY AQUAFOR (FOUND AT YOUR LOCAL DRUGSTORE) TO THE AFFECTED AREA. CALL YOUR ESTHETICIAN IMMEDIATELY IF ANY OF THESE CONDITIONS DO NOT RESOLVE WITHIN 24 HOURS.

For best results, a series of 6-8 peels at 2-4 week intervals is suggested. Using the correct at home care regimen to keep the results and corrections on going is also suggested. Your esthetician will help you decide which program works best for you, as they vary based on skin conditions.

PROTOCOLS **PEELS**

O² LIFT

TREATMENT PROTOCOL

SKINCARE GOALS: **BRIGHTNESS**

DESCRIPTION: Our signature oxygenating treatment designed to boost brightness and glow in dull skin.

INDICATIONS: Dull skin, dry/dehydrated skin.

SUGGESTED TIME: 30 minutes.

*Prior to every treatment, review and have client initial and sign the IMAGE INFORMED TREATMENT CONSENT FORM

1- CLEANSE

Apply **O² LIFT GEL TO MILK CLEANSER** and cleanse with wet fingertips for 1-2 minutes (steam optional). Remove with sponges and tepid water or aromatherapy steam towel.

2- EXFOLIATE

Apply 3-4 full pumps of **O² LIFT ENZYMATIC FACIAL PEEL** to entire area of treatment. Perform relaxing effleurage massage movements for 5-7 minutes until the product liquefies. Continue to massage and exfoliate the skin for an additional 5-7 minutes. Remove with sponges and tepid water or aromatherapy steam towel.

3- MASQUE

Apply **O² LIFT OXYGENATING FACIAL MASQUE** with an **I SWAB** or masque brush. Do not massage. Upon application, the masque will thicken and settle in a cloud-like fashion. Let sit until all the effervescent bubbling is completed (approximately 10 minutes). Remove with sponges and tepid water or aromatherapy steam towel.

4- TARGET: REJUVENATE

Apply 1 full dropper of the **O² LIFT STEM CELL ENHANCER** to entire treated area.

5- PROTECT

Apply a generous amount of **O² LIFT TINTED MOISTURIZER SPF 30** to entire treated area.

6- YANA

Offer client a complimentary sample of **YANA® DAILY COLLAGEN SHOTS**.

7- POST TREATMENT

Provide **IMAGE POST TREATMENT KIT** to client and review post treatment care.

ORMEDIC® LIFT

TREATMENT PROTOCOL

SKINCARE GOALS: **BALANCE**

DESCRIPTION: A multi-fruit enzyme peel that helps to brighten, balance and revitalize dull skin.

INDICATIONS: Unbalanced skin, teen skin, sensitive skin.

SUGGESTED TIME: 25 minutes.

*Prior to every treatment, review and have client initial and sign the IMAGE INFORMED TREATMENT CONSENT FORM

1- CLEANSE

Remove eye and lip makeup with **I BEAUTY REFRESHING FACIAL WIPES**.
Apply **ORMEDIC BALANCING FACIAL CLEANSER** and cleanse with wet fingertips for 1-2 minutes.
Remove with sponges and tepid water.

2- EXFOLIATE

Measure 1/8 oz. of **ORMEDIC LIFT™ SOLUTION** into a medicine cup. Apply with an **I SWAB** in a circular motion beginning at forehead, moving to right cheek, left cheek, nose and perioral area. Massage for 1 minute. Solution may be left on the skin an additional 5-10 minutes. Remove thoroughly with sponges and cool water until client feels ZERO activity.

3- MASQUE

Apply **ORMEDIC BALANCING GEL MASQUE** combined with 1 full dropper of **I ENHANCE** of choice with an **I SWAB** or masque brush. Leave on skin for 5-10 minutes. Remove with sponges and tepid water. Optional: Perform arm and hand massage with **VITAL C HYDRATING HAND AND BODY LOTION** while masque sits.

4- TARGET: BALANCE

Customize by combining 1 full dropper of **I ENHANCE** of choice with **ORMEDIC BALANCING ANTIOXIDANT SERUM** and apply to entire treated area.

5- EYE

HOLIDAY BLISS & BUBBLE

FACIAL PROTOCOL

SKINCARE GOALS: **BRIGHTEN & OXYGENATE**

DESCRIPTION: Ring in the holiday season with luminous and glowing skin! This facial will brighten, oxygenate and nourish even the most winterized skin, leaving it smooth, plump and incredibly hydrated.
SUGGESTED TREATMENT TIME: 50 Minutes.

1- PRE-CLEANSE	Remove eye and lip makeup with I BEAUTY REFRESHING FACIAL WIPES . Apply the MAX™ FACIAL CLEANSER and cleanse with wet fingertips for 1-2 minutes. Remove with sponges and tepid water or aromatherapy steam towels.
2- CLEANSE	Apply ILUMA® INTENSE BRIGHTENING EXFOLIATING CLEANSER and cleanse with wet fingertips for 1-2 minutes. Remove with sponges and tepid water or aromatherapy steam towels.
3- EXFOLIATE	Measure 1/8 oz. of SIGNATURE FACELIFT SOLUTION into a medicine cup. Apply with an I SWAB in a circular motion beginning at forehead, moving to right cheek, left cheek, nose and perioral area. Massage for 1 minute. Solution may be left on the skin an additional 5-10 minutes. Remove thoroughly with sponges and cool water until client feels ZERO activity.
4- EXTRACT (if necessary)	Dispense PRE-EXTRACTION EMULSION into a medicine cup and mix with an I SWAB or fan brush until product reaches a whipped consistency. Apply to areas of congestion and leave on for 7-10 minutes under steam. Remove with sponges and tepid water prior to performing extractions.
5- MASQUE	Pump 2 - 4 pumps of the O2 LIFT OXYGENATING FACIAL MASQUE into a medicine cup. Apply using an I SWAB to entire treatment area. Do not massage. Let sit until effervescent bubbling is completed (approx. 15 min). Remove with a warm towel. Optional: Perform arm and hand massage with VITAL C HYDRATING HAND AND BODY LOTION while masque sits.
6- MASSAGE	Combine 1 full dropper of I ENHANCE VITAMIN C FACIAL ENHANCER with 1-2 pumps of VITAL C HYDRATING FACIAL OIL and massage face, neck and décolletage for 5-10 minutes. Perform IMAGE facial massage.
7- EYE	Apply ILUMA INTENSE BRIGHTENING EYE CREME to orbital area.
8- PROTECT	Apply a generous amount of DAILY PREVENTION™ of choice (based on skin type and condition) to entire treated area.
9- LIP	Apply ORMEDIC® BALANCING LIP ENHANCEMENT COMPLEX to entire lip area.
10- YANA	Offer client a complimentary sample of YANA® DAILY COLLAGEN SHOTS .

Q: CAN I PERFORM PEEL SERVICES WITHOUT USING ENHANCERS?

A: We strongly recommend the use of our I ENHANCE products with our peel treatments. Using the I ENHANCE facial enhancers in conjunction with IMAGE's unique peel blends allows you to customize your peels to more effectively target and treat specific skin conditions based on your clients' individual needs.

Q: CAN I APPLY THE I-ENHANCE FACIAL ENHANCERS DIRECTLY TO THE SKIN?

A: You can safely apply the I ENHANCE hyaluronic facial enhancer, I ENHANCE stem cell enhancer and I ENHANCE antioxidant enhancer directly to the skin, all of our other I ENHANCE facial enhancers must be mixed into a serum, masque or crème prior to application.

Q: MY CLIENT HAS PIGMENTATION AND ACNE. CAN I USE MORE THAN ONE ENHANCER TO CORRECT HIS/HER SKIN?

A: During your treatment you can use one, two or all six enhancers to customize and optimize your treatments. For example, if your client has pigmentation as well as acne, you can add I ENHANCE kojic facial enhancer to your masque for additional brightening and then add I ENHANCE retinol facial enhancer to a serum or crème to help heal acne blemishes.

Q: I DID A WRINKLE LIFT PEEL™ TREATMENT ON MY CLIENT AND SHE DIDN'T "PEEL." DID I DO SOMETHING WRONG?

A: If you followed the written protocol then you did everything right. You cannot guarantee that there will be actual visual peeling or flaking. Each person's skin will react differently. However, you can optimize the chances of your client peeling and optimize your results by mixing 1 dropper of the I ENHANCE retinol facial enhancer with AGELESS total retinol-A crème and applying to the entire treated area after the peeling treatment and prior to the application of PREVENTION+.

Q: MY CLIENT HAS REALLY STUBBORN PIGMENTATION. IS THERE ANYTHING I CAN DO TO MAKE THE PEELS WORK FASTER?

A: All IMAGE peels are designed to lighten, brighten and tighten in just one treatment and the addition of our I ENHANCE take the results of any treatment to the next level. For stubborn pigmentation I ENHANCE kojic facial enhancer, I ENHANCE vitamin C facial enhancer and I ENHANCE retinol facial enhancer are the best options. One, two or all three of these powerful enhancers can be added to your masque, serum or crème to customize your treatment and treat stubborn pigmentation.

Q: MY CLIENT HAS SENSITIVE SKIN. IS IT SAFE TO USE THE I ENHANCE PRODUCTS ON HER?

A: IMAGE offers a full range of treatments and our OrMedic Lift™ and Signature FaceLift™ solutions are safe for even the most sensitive skin. To customize these treatments, add our I ENHANCE antioxidant facial enhancer with more than 15 healing antioxidants and our I ENHANCE stem cell facial enhancer to extend the life of our skin's precious stem cells.

Q: CAN I USE THE I-ENHANCE PRODUCTS WITH TREATMENTS OTHER THAN PEELS?

A: Our six enhancers are designed to increase the efficacy of all IMAGE products and can be used to customize and optimize masques, serums and crèmes if you are performing peels or any other skincare treatment such as facials and microdermabrasion.
