

# FM-14 SOLID CEILING FLUSH MOUNT AIR CLEANER

The powerful FM-14 residential smoke eater will keep your entertainment room, game room, office or studio free of smoke, odors, pollen, dust, etc.

**400 – 800 CFM - 1 unit covers approximately 4,000 cubic feet. 3-filter system includes 12 inches of HEPA media plus pre-filtration & carbon.**

If you have a solid ceiling and you don't want to install a ceiling mounted air cleaner that hangs down, the FM14 is what you're looking for. The FM-14 is designed for a flush mount installation in a solid ceiling with 16" on center joists. **13" of clearance above the ceiling is required.** After the FM-14 smoke eater is secured to joists, **a finished molding is recommended for appearance.** It's recommended that the ceiling height doesn't exceed 10 feet. All filters in the FM-14 commercial smoke eater are accessible from the louvered doors on the face of the system. **1 unit recommended for every approx. 800 square feet.**

**How does the FM-14 work?** Three (3) Filter System Provides Excellent Smoke Removal Results. The FM-14 Air Cleaning System uses a powerful blower to draw the air from smoke-filled areas. As the air flows through the high-efficiency filter media, 95% of airborne particles & contaminants are removed on each pass. The clean air that is constantly discharged into the area is refreshing and remarkably free of smoke, odors and particles.

<b>Capacity</b>	Up to 800 Sq. Ft.   4,000 Cu. Ft.
<b>2-Speed</b>	400 – 800 CFM
<b>Installation</b>	Solid Ceiling – 16" on Center Joists
