

FM-22 SOLID CEILING FLUSH MOUNT AIR CLEANER

The powerful FM-22 solid ceiling flush mount smoke eater is perfect for your entertainment room, game room, private club or bar.

650 – 850 CFM - 1 unit covers approximately 6,000 cubic feet. 3-filter system includes 12 inches of HEPA media plus pre-filtration & carbon.

If you have a solid ceiling and you don't want to install a ceiling mounted air cleaner that hangs down, the FM-22 is what you're looking for. The FM-22 is designed for a flush mount installation in a solid ceiling with 24" on center joists. **13" of clearance above the ceiling is required.** After the FM-22 smoke eater is secured to joists, **a finished molding is recommended for appearance.** It's recommended that the ceiling height doesn't exceed 10 feet. All filters in the FM-22 commercial smoke eater are accessible from the louvered doors on the face of the system. **1 unit recommended for every approx. 8,000 cubic feet.**

How does the FM-22 work? Three (3) Filter System Provides Excellent Smoke Removal Results. The FM-22 Air Cleaning System uses a powerful blower to draw the air from smoke-filled areas. As the air flows through the high-efficiency filter media, 95% of airborne particles & contaminants are removed on each pass. The clean air that is constantly discharged into the area is refreshing and remarkably free of smoke, odors and particles.
