Think you've got a tough indoor pollution problem? Meet the solution! **With a whopping 25 inches of advanced filtering media**, nothing beats the INTERCEPTOR-2000! For difficult or demanding industrial environments, including factories, warehouses, auto body shops, welding shops, spray paint booths, etc., only the most vigorous filtration is acceptable. The I-2000 Air Purifier is the **Industrial Workhorse of our Commercial Air Cleaning Systems**. The INTERCEPTOR-2000 industrial air cleaner can remove heavy dust, smoke, oil mist, odors, gases, chemicals and many more contaminants. This unit is a money-saver because it allows you to recycle your heated or cooled air, rather than exhausting to the outside. This means it saves you money year-round!

The top of each unit is pre-drilled with (4) eye bolts 16" on center for easy installation. Installation hardware also includes (4) "S" hooks, (4) eye lags and 20' of industrial hanging wire. **(1) INTERCEPTOR-2000 industrial air cleaner is recommended for every 1500 - 2000 sq. ft.** (approximately).
