

Easy Pull

## WHEELCHAIR RESTRAINT SYSTEM

AMF-Brunns of America

Part Number: MA200004  
October 2019 • REV.01

## Easy Pull

Easy Pull -- the world's most innovative rear-entry restraint system -- pulls a wheelchair and passenger up a ramp into a vehicle. Attached to the front of the wheelchair, it effortlessly draws the wheelchair inside. Once in place, Easy Pull's restraint system secures the wheelchair to the vehicle.

- Easy to use and operate.
- Eliminates the need for a person to physically push and secure the front of a wheelchair.
- Wireless remote control.
- Automatic tensioning.
- Signal sounds to indicate if wheelchair is unlatched.
- Compact design.
- Two speed levels.
- Webbing length – 14 ft / 4.3 m
- Weight: 353 lbs / 160 kg
- EMC Tested (electro magnetic compatibility).

## Standards

AMF-Brunns of America's EasyPull meets the following applications: RESNA WC18, ISO 10542 and DIN 7500-2.

## About AMF-Brunns

Established in 1958, AMF-Brunns manufactures wheelchair securement products, occupant restraint systems and associated equipment for the safe transportation of people in wheelchairs. We invented the world's first 4-point retractor wheelchair anchoring system. Today we service customers in more than 50 countries throughout North and South America, Australia, Asia, Middle East and Africa.
