WHAT'S IN MY BAG?

Paging Dr. Wilson! The *Grey's Anatomy* star shares her on-set musts

Even out of scrubs, *Grey's Anatomy* actress **Camilla Luddington**, 34, remains in character. To highlight her script for the ABC hit (Thursdays, 8 P.M.), "I use Vitapens," says the star. "They look like giant pills." The mom of 11-month-old Hayden, with fiancé **Matthew Alan**, opens her Stella McCartney to share the rest of her vitals.

GAME FACE

"I'll bring in UNO and we'll play that on set. I

posted us playing on Instagram. I love UNO!"

BLACKOUT

"I have a satin eye mask, just any black one. I can't sleep when there's any light. I'll use it to sleep in my trailer and nap in between takes."

A SMALL BITE

"My daughter loves to chew on rubbery bath toys, so I have a tiny rubber ducky in my bag. She teethes on those."

ANIMAL INSTINCT

"I have a WubbaNub — it's my daughter's favorite

pacifier. They have a little stuffed animal on the end of it. We have all of them. In my bag now, I have the giraffe — her favorite — and the dog."

FACE FACTS

"I only use one side of the Physicians Formula Twin Cream Concealer — the yellow side. It's great for covering up red spots. A lot of girls on set have fallen in love and use it. I've tried so many expensive concealers, but this is the best one."
