About Dahl Medical Supply

Dahl Medical Supply's roots reach back to 1912, when a small, community pharmacy opened with one mission: to serve neighbors with care and integrity. Over a century later, that same mission continues in Burnsville, Minnesota—now as a trusted provider of home medical equipment and mobility solutions.

Though our last name isn't Dahl, we carry the name with pride, honoring its legacy through exceptional service and genuine compassion. As a family-owned business, we treat every customer like family, offering trusted products and personalized care to help you live safely and independently at home.

Waiver Program Support

We proudly work with Minnesota Waiver Programs—including CADI, DD, EW, and BI—to help individuals access the medical equipment and supplies they need. Our knowledgeable team assists clients, case managers, and families through the entire process, ensuring quick approvals, quality products, and dependable service every step of the way.

For over 100 years, the Dahl name has stood for trust, service, and care—and we're honored to carry that legacy forward, one customer at a time.
