Maintain business certainty with intelligent and efficient network power protection for your network closets and server rooms.

Smart-UPS™

The world's most popular network and server UPS. Entry level to scaleable runtime solutions Smart-UPS are ideal for servers, point-of-sale, routers, switches, hubs, and other network devices.

Smart-UPS™

Advanced line interactive power protection for servers and network equipment

Intelligent and efficient network power protection from entry level to scaleable runtime. Ideal for servers, point-of-sale, routers, switches, hubs, and other network devices.

- Reliable
- Intelligent
- Efficient
- Manageable

The world's most popular network and server UPS

APC™ award-winning Smart-UPS™ is the most popular UPS in the world for servers, storage and network power protection. Smart-UPS provides availability and manageability to your network allowing you to focus on business growth instead of business downtime. Trusted to protect critical data and equipment from power problems by supplying clean and reliable network-grade power. Smart-UPS' patented green mode provides extremely high efficiency at low, medium and high load levels making them ideal for multi-core or virtualized servers that have varying load consumption all while saving utility costs. Managed outlet groups allow segmented load control to power on or off your equipment in series as well as load shedding to preserve battery power for critical connected equipment or reboot a hung device without impacting other equipment. Available in a variety of form factors (tower, rack mount, rack/tower convertible) there is a model for every application and budget.

Trusted by millions of IT professionals throughout the world Smart-UPS models have long been considered the benchmark for all network and server UPSs. Rack-mounted Smart-UPS are ideal for powering Blade or density optimized servers in a distributed power protection environment as the primary or redundant protection solution. The extended run Smart-UPS model has the capability to add external battery packs to scale runtime from minutes to hours typically needed for converged voice and data network power protection.

Smart-UPS accessories include additional manageability options through the Smart-Slot interface, which is an internal slot for the installation of optional accessory cards. A variety of backplate PDU options, external standard and switched PDU options, management devices, service products and mounting options are also available These accessories can customize your solution to increase availability, adaptability, serviceability, manageability and performance.

Smart-UPS Tower and Rack-mount 750 – 3,000 VA

Application-optimized standard models, ideal for servers, storage, point-of-sale, and other network devices

[SMT750I]

[SMT1500RMI1U]

[SMT1500RMI2U]

[SMT1500RMI2U]

[SMT750I]

Standard Features

High-efficiency Green Mode: Optimum efficiency which saves utility and cooling costs

Emergency Power Off (EPO): Provides for remote UPS shut-off in the event of a fire or other emergency (2,200 VA and above)

Alphanumeric LCD Display: Intuitive interface provides detailed and accurate information with ability to configure locally

Battery Disconnect: Convenient way to disconnect battery for transport

Network-grade Power: Provides most stable power conditions by filtering noise, automatic voltage regulation (AVR), and surge protection

Communication Ports: Serial, USB, and SmartSlot™ for accessory cards
Advanced Battery Management: Temperature-compensated charging extends life and advanced algorithms recommend replacement date

Smart-UPS Extended Run 750 – 3,000 VA

Convertible extended run models ideal for critical servers
and voice/data switches.

[SMX3000HV]

[SMX1500RMI2U]

[SMX1500RMI2UNC]

Additional Features

Slim 2U Rack/Tower and 4U Short Depth Convertible Forms: Display rotates easily for use in or out of a rack.

High-frequency Design: Reduces size of (or eliminates) bulky transformers making installation even easier.

Low-Voltage models (2 - 3 kVA): Configurable output from 100 V – 127 V on low-voltage models

High-Voltage models (2 - 3 kVA): Configurable output from 200 V – 240 V on high-voltage models

Models available with preinstalled network cards: Models with "NC" suffix have pre-installed AP9631 network cards with environmental monitoring

Smart external battery connector: Accepts external batteries and increases runtime automatically to increase availability

Switched outlet groups: Reboot hung devices, shed noncritical loads to conserve runtime, and sequence start-up/turn off

Smart-UPS Display

Intuitive, easy-to-use LCD interface

```
Operating Mode:
Online - Green
```

```
Idioma:
Espanol
```

```
Load Energy:
    10.000KWH
```

```
UPS Serial No:
WA090100000001
```

```
Replace Battery
by: Jan-2020
```

Standard Features

LCD display screen: Clear, consistent, and detailed information in your choice of basic or advanced menus

Power status:
- Operating mode and efficiency
- Load VA/Watts/Amps
- Input/output voltage and frequency
- Battery capacity and runtime
- Energy meter and more

Control: UPS and outlet group settings

Configuration:
- Language
- Power quality settings
- Alarm, delay and threshold settings

Test and diagnostics: Initiate battery and runtime calibration tests

Load Energy Meter: Track energy usage in kilo watt hours

Logs: See explanation of last 10 transfers and faults

About Menu: Displays UPS and replacement battery part numbers, serial numbers, battery install, and proactive replacement battery dates

Quick status indicators: Online, on battery, fault, and replace battery LEDs for quick status identification

Escape Button (Esc) : Exits to the previous menu or screen

Return Button (⏎) : Used to enter or confirm settings

Navigation arrows: Allow for quick adjustment of settings

Products Services and Accessories

Schneider Electric Critical Power & Cooling Services (CPCS) provides the highest quality services and solutions by trained and trusted professionals. Our world-class services offer a smart way to build, operate, and maintain your critical applications, ensuring the right people, in the right place, at the right time.

Management Cards

AP9630: UPS Network Management Card

AP9631: UPS Network Management Card with Environmental Monitoring

AP9620: Legacy Communications SmartSlot Card

Battery Packs

SMX48RMBP2U: APC Smart-UPS 48 V External Battery Pack Rack/Tower
