

TRU-SHIFT™

THROTTLE CORRECTION SYSTEM

NOW AVAILABLE FOR

QUICK FUEL™
TECHNOLOGY

CARBURETORS

Patent Pending

Shifts perfectly every time.

Provides proper shifting in city traffic or when wide open.

Easy to install – simply bolts on. Automatically adjusts cable with wide open throttle.

No need to worry about adjustments for throttle cable pressure.

Engineered to provide proper geometry through all throttle ranges.

Durable and attractive finish – bracket is stainless and the arm is anodized.

Not necessary to remove transmission pan to install.

Provides precise cable adjustment for 700-R4 and 200-4R transmissions.

Also available for Holley, Edelbrock and Demon Carburetors
