

# EZ Lawn & Garden

May 2012

Comments from the testers:

"This is a great way for kids to help and have fun at the same time. It certainly is kid-friendly."

"This worked wonderful. It was so easy to put together and use. Carrying it by yourself is a breeze. Grab two handles and pull."

"I'm always looking for an easy way to haul leaves instead of sticking them inside a black plastic bag or mulching them with the lawn mower. This fit the bill. I like that it was easy to set up, easy to stick in the ground so I could rake the leaves and grass clippings inside and pulling it behind me was a breeze."

"It works well to trim the box hedges by laying it as far under the hedges before trimming to catch the clippings."

**9 out of 10 gardeners  
recommend the EZ Leaf Hauler!**
