

Tooling Around

Here are just a few gardening tools to make the job easier for your customers this season.

Smart Rain Barrels

Fiskars:

The classic terra cotta color and highly textured surface on Fiskars' Rainwater Harvesting Systems mimic hand-thrown pottery for a timeless,

elegant look that complements nearly all architectural styles. A concave back helps the rain barrel sit flush against home exteriors. It includes a built-in base, cover, worry-free diverter kit and threaded spigot for easy installation.

Brainy Sprinkler

Cyber-Rain:

Cyber-Rain is a smart sprinkler with a brain – think of it as your personal lawn & garden concierge. Cyber-Rain works through your PC to automatically adjust the amount of watering based on weather and seasonal conditions, saving you time, water and plant replacement costs by stopping the sprinkler system on rainy days, automatically decreasing the watering schedule on cold or humid days, and increasing it on hot and dry days.

Cutting Precision

Corona Clipper:

Ideal for roses, shrubs and trees, Corona's new Long Reach Pruner handles difficult pruning jobs with ease. Its Dual Arc blade first bites the branch or stem then slices for the ultimate in cutting precision. The Long Reach Pruner's Powerglide Comfort Grip makes tangled ropes a thing of the past, while its 360-degree rotating head offers an unlimited number of cutting positions.

Bottled Up

West County Gardener:

These gloves are constructed with a high-tech spandex mesh fabric derived from recycled PET (polyethylene terephthalate) beverage bottles that have been ground up and spun into recycled yarn. Each pair of the new West County Gardener Work and Landscape gloves removes one 8-ounce beverage bottle from a landfill.

Shark Attack

Radius Garden:

The Radius Garden Shark's curved tines rake and spread mulch evenly and easily, without flipping the head over. It is also perfect for mixing compost, topsoil, etc. into existing beds. The unique rounded head rakes twice as fast with half the effort. It offers a comfortable padded grip and a strong, light-weight fiberglass shaft.

EZ Does It

EZ Leaf Hauler:

The EZ Leaf Hauler is a modified tarp that uses tent construction technology to form sides and a back, and stitched handles for easy hauling and dumping. Stakes are conveniently attached and can be pressed into the ground to hold the tarp in place on windy days. It has the same capacity as five wheelbarrows and takes up almost no storage space.

Unique Design

Pallina:

The new Pallina Vegan Glove is an innovative, high-quality garden glove for women that uses
