

Our mission is to source and share exceptional, organic coffee that inspires people to work hard, dream big, and impact the world.

Certified Organic

Choosing organic affects much more than what you put in your own body.

Clean products mean clean environments for farmers at origin—from the land they live on to the water they drink from. We inspire people to choose better coffee, and inspire the industry to do better as a whole.

Relationship Coffee

Our commitment to community goes far beyond our local neighborhoods.

By sourcing our coffee with a people first intention, we look to build long lasting relationships with partners at origin. It's always been about more than just coffee at Groundwork, it's about people.

Cold Brew Done Right

Groundwork Certified Organic Cold Brew is steeped 24 hours for optimal flavor and is made without additives or preservatives.

It's just great coffee - crafted with filtered water and locally roasted organic coffee beans, then bottled or canned fresh at our brewery. It comes ready to drink in our 10oz. bottle. Or, try it as Nitro, which has an added creamy texture that beer aficionados will love.

If you want to make our cold brew at home or use it as an ingredient in some of your favorite recipes, try our Concentrate in the vintage growler.
