Arctic Sliding Track

The Arctic Sliding Track System offers a range of innovative sliding benefits, modern aesthetics and convenient design features that complement today's popular design trends in both commercial and residential spaces.

Developed by Criterion's design team, this range delivers a slim-fit minimalistic and seamless look with its low-clearance and soft-close sliding system.

Purpose-engineered to offer premium style and reliable performance, the arctic sliding track is a perfect solution for home and office settings where modern architectural form and functionality are of equal priority.

The Arctic track was developed to meet the varying needs of architects, contractors, builders and interior designers. Arctic soft-close roller mechanism offers gentle door release, minimal friction, improved longevity and is low maintenance ensuring the track delivers ongoing premium performance. Engineered with a universal cavity slider, the considered design reduces the complexity and saves on installation time compared to other traditional sliding track systems.

The Arctic Sliding Track achieves an understated style and seamless cohesion between rooms.

Why choose Arctic?

- + Quick release roller
- + Soft-close technology
- + Low clearance
- + Door thickness 32mm – 44mm
- + Weight Capacity up to 80kg
