

Arctic Sliding Track

A new track of
thought.

www.criterionindustries.com.au

 **Criterion**

Arctic

The Arctic Sliding Track System offers a range of innovative sliding benefits, modern aesthetics and convenient design features that complement today's popular design trends in both commercial and residential spaces.

Developed by Criterion's design team, this range delivers a slim-fit minimalistic and seamless look with its low-clearance and soft-close sliding system. Purpose-engineered to offer premium style and reliable performance, the Arctic sliding track is a perfect solution for home and office settings where modern architectural form and functionality are of equal priority.

The Arctic track was developed to meet the varying needs of architects, contractors, builders and interior designers. Arctic soft-close roller mechanism offers gentle door release, minimal friction, improved longevity and is low maintenance ensuring the track delivers ongoing premium performance.

Engineered with a universal cavity slider, the considered design reduces the complexity and saves on installation time compared to other traditional sliding track systems. The Arctic Sliding Track achieves an understated style and seamless cohesion between rooms.

WHY CHOOSE ARCTIC?

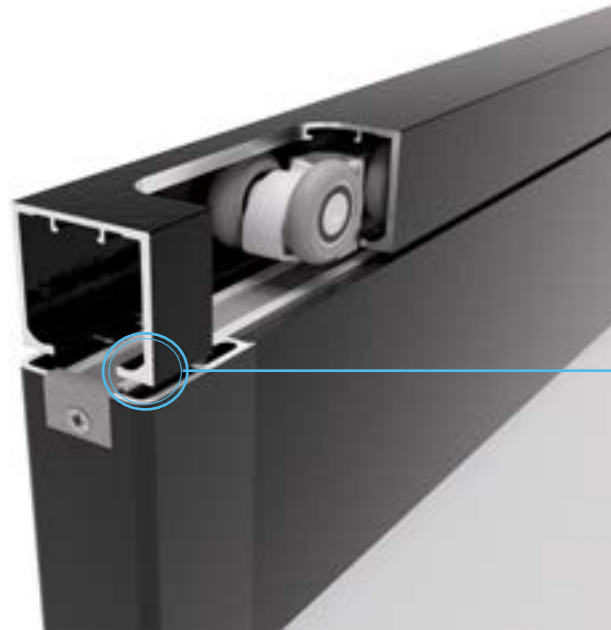

- + **NEW FEATURE: A larger wheel in diameter**
- + **Door weight capacity up to 180kg**
- + **Simple installation**
- + **Soft close**
- + **Low clearance**
- + **Suits timber or aluminium doors**

ROLLER OPTIONS

- + **Standard Roller - 180kg**
- + **Low Clearance Roller - 180kg**
- + **Soft Close Standard Roller - 40kg, 80kg and 120kg**
- + **Soft Close Low Clearance Roller - 40kg, 80kg and 120kg**

ALL NEW - ARCTIC REVOLUTION ROLLER

Universal Sliding Track

The CI-5150 Sliding Track is often used in Cavity Slider and 'Coffer' scenarios and styles. The cavity slider is designed for simple installation, is smooth-closing and offers reliable, high-quality performance.

Quick Fix Plate

Available for standard or soft close rollers allowing easy installation on timber and aluminium doors.

Flush Head Track

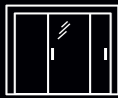

The CI-5151 Sliding Track is designed for use in flush head applications. Engineered to be positioned within the ceiling, the flush head Arctic Sliding Track offers a clean and elegant minimalist style.

Low Clearance

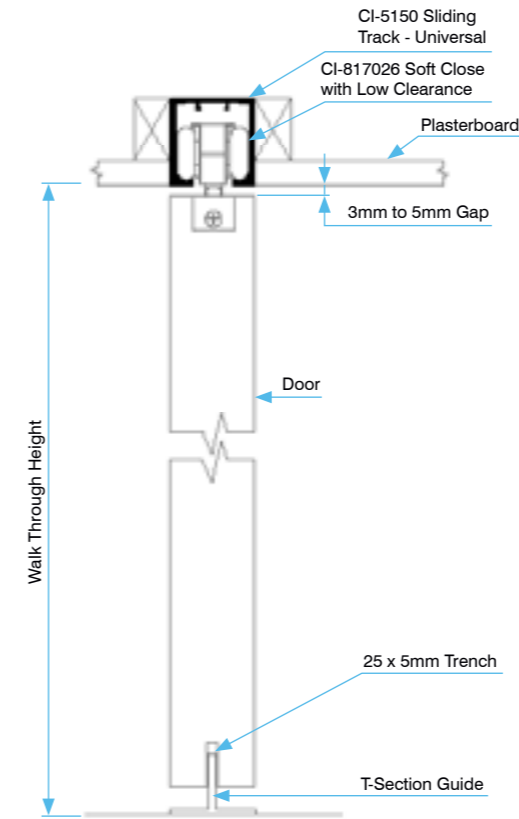

Low clearance sleeve available for both standard or soft close rollers that allows for a tiny 3mm clearance between the top of the door and the sliding track.
