Atlantic

The Atlantic Top Roller System is an all-purpose sliding track system designed for modern interior styling conventions.

Ideal for high traffic environments, the Atlantic track can be used as a visible feature within a space, or concealed within a ceiling space using pelmets.

Engineered for simple installation, this flexible track system is configurable in a number of colours and finishes, designed to complement the unique aesthetic requirements of your project.

The Atlantic Top Roller System is equipped with ball bearing rollers to ensure smooth and consistent operation. Additionally, it is designed to suit a wide range of doors, with holding capacity of up to 180kg.

Why Choose Atlantic Top Roller System?

- + Smooth action
- + Available in a wide range of finishes
- + Suits a wide range of applications and door types
- + Clip-on pelmet
- + Holds up to 180kg
- + Simple installation

Atlantic Overtaking System

The Atlantic Overtaking System is engineered for smooth operation to maximise your space.

This range can be used in conjunction with various components from other ranges including Artesian details; aluminium split jamb, pelmets and closing jamb; Tanaro details; square set plaster finish.

The Atlantic Overtaking System can be used as corner units and/or T-intersections. When employed in a sliding door application, the Overtaking System ensures doors seamlessly follow each other when opened and neatly stack behind one another in closed position.

Why Choose Atlantic Overtaking System?

- + Made to order
- + Engineered rollers with high speed precision bearing
- + Smooth action
- + Commercial and residential application
