Multiglaze

The Multiglaze Suite is a simple and cost effective partition system designed to seamlessly integrate walls, windows and doors throughout commercial spaces. Designed for simple installation, the quality components are easily fastened and secured to the floor and ceiling. Multiglaze embodies a minimalistic and contemporary aesthetic with a clean aluminium outline and is an affordable solution for a variety of commercial environments.

The Multiglaze Suite uses glass as a partition to complement the modern aesthetic whilst also maximising natural light in the process. Multiglaze disperses light throughout any space, creating an impression and sense of openness while also saving on energy expenditure. If privacy is of concern, we recommend a frosted finish or tint to the glass panels. Frosting can also minimise outside distractions and eliminate potential disturbances.

Multiglaze is equipped with a durable, sturdy and secure door frame design. The frame is capable of accommodating a range of door thicknesses and is recommended for silicone butt-joined glass partitioning. With flexibility, customisability and considered aesthetics, the Multiglaze Suite is perfect for a wide variety of commercial settings.

Why Choose Multiglaze?

- + 20mm reveal
- + Centre glazing
- + Simple installation
- + Glass partition
- + Cost effective
- + Light efficiency
- + Minimalistic
- + Contemporary
- + Sturdy door frame design

*Stocked only in Victoria. Contact our sales department if your project is outside Victoria.
