Niagara

Niagara is a high strength aluminium roller system designed to withstand high traffic commercial spaces. Combining contemporary style and smooth functionality, Niagara is a versatile system that seamlessly integrates into variety of spaces. Niagara is available in a variety of pre-finished colours to suit your project requirements. The roller assembly boasts smooth ball bearing wheels that can hold up to 250kg.

The system can be used throughout a range of internal commercial spaces including shops, banks, schools and other settings. Engineered for simple installation, the Niagara system is designed with an end cap and removable pelmet to make adjustments and easily access rollers.

The Niagara sliding track is the perfect solution for spaces where quality and durability is of equal priority.

WHY CHOOSE NIAGARA?

+ **Top hung sliding track**
+ **Door weight capacity up to 250kg**
+ **Simple installation**
+ **Heavy duty design**
+ **Suits 44mm timber or aluminium doors**
+ **Acoustic Rating:**
  Niagara Sliding System – RW28
