⊿ Criterion

Introducing the
Opti-Lite® Door Vision Panel.

Safety must always be a key priority when building
and designing commercial and residential spaces.

The Criterion Opti-Lite® Door Vision Panel is
an innovative installation solution, designed
to be installed in both new and existing doors.
The Opti-Lite® Door Vision Panel allows for visual
sightings and natural light into a workspace
and is fully tested and certified to comply with
AS1288, which creates for safer workplaces
and residential spaces.

For more detailed information on the
advantages of the Opti-Lite® Door Vision Panel
visit www.criterionindustries.com.au
or call 1300 754 337.

Improved style.
Enhanced safety.

Manufactured and engineered with a durable metal secure fixing clip, the Opti-Lite® Door Vision Panel is easy-to-install and is a more affordable option than replacing existing doors on site.

The Opti-Lite® Door Vision Panel also features a pre-glazing design concept that saves installation time and eliminates the need to complete the tedious process associated with traditional glazing.

The Opti-Lite® Door Vision Panel can be installed in both internal and external applications and is available in a variety of sizes and shapes.

Key Features

- Glazed in 6.38mm clear safety laminate for extra security & durability.

- Suits a wide range of door thicknesses – 32mm - 48mm.

- Available natural and anodized finish.

- Can be manufactured to suit specific customised requirements (including, size, colour and class type).

Ideal installation locations

- Schools
- Sporting facilities
- Offices and commercial spaces
- Cafés/ restaurants
- Bathroom entrances

1700 x 200

## 600 x 300

600 x 600
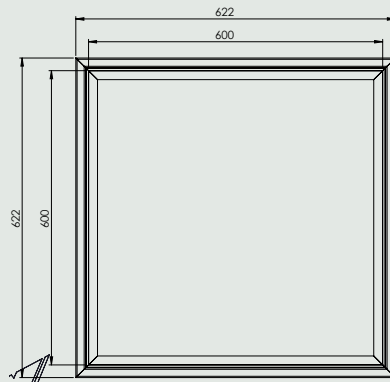

## 900 x 600
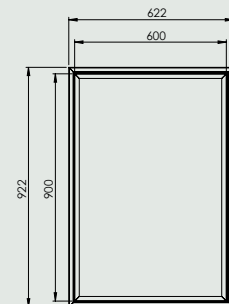

Opti-Lite® Door Vision Panel

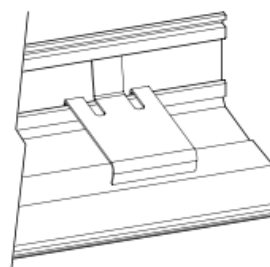

Opti-Lite® Installation Instructions

Step 1.

Insert clip so that middle tab fits into upper groove and one side tab fits into lower groove.

Step 2.

Pry second side tab into lower groove using screw driver.

Step 3.

Ensure clip is installed correctly and repeat for all clips provided. Space clips proportionally on all four sides.

Step 4.

Place front frame into opening and press back frame into position from opposite side of the door, ensuring clips catch as shown.

Note

Using Silicon to seal to inside of flange will prevent movement within opening after installation. Removing the Opti-Lite® Door Vision Panel after installation may result in damage to the clips and possibly the frame.

Convenience and safety combined.
