

# **User Manual & Setup Instructions**

# Welcome to Loxx Boxx!

At Loxx Boxx, we protect your deliveries outside of your home.

#### **Accessories Kit**

The kit will be on top of your Loxx Boxx when you open it.

### **Initial Setup**

Charge the Loxx Boxx power bank by placing the micro USB tip into the power bank. Then connect the USB to a wall charger\*.

The indicator lights will flash while charging.

Once fully charged you can use the power bank to charge your Loxx Boxx.

## **Charging Your Loxx Boxx**

- 1. Connect the power bank to the USB cord.
- 2. Insert the micro USB into the Loxx Boxx.

The charging port is on the left side of the panel. It can be accessed with the Boxx closed.

- 3. The Power button will flash green when the Boxx is awake.
- 4. Battery indicators are as follows:
  - GREEN: Fully charged
  - YELLOW: 30%-80% battery level
  - RED: below 30% battery level
- 5. Charging indicators are as follows:
  - FLASHING YELLOW: charging
  - SOLID WHITE: fully charged
- 6. The Boxx LED's will sleep during the charging process. To check charging status, simply press the power button.

#### Registration

Scanning the QR Code to the right will direct you to the Apple App Store or Google Play Store to download the Loxx Boxx App.

### App and Boxx Setup

Once you have downloaded the app, select "Get Started" to begin.

## App and Boxx Setup

The App will guide you through the registration process.

### **Connecting Loxx Boxx with App**

Select "Add Your Boxx" to configure your new Loxx Boxx

to a Bluetooth device.

#### **Connecting Loxx Boxx to Wi-Fi**

Give your Loxx Boxx a name.

Your Loxx Boxx is now paired with Bluetooth and Wi-Fi.

#### Setting a Master Code

Select "Change your master code" and follow the on-screen instructions.

#### Setting a Master Code

#### **Deliveries**

Deliveries are scheduled items coming to your Loxx Boxx. You can enter a description, designate delivery type, and add the tracking number. Items with tracking numbers are automatically tracked in the app. The app also creates a 1-time-use Access Code that allows the carrier to access the Boxx. **All carrier information is conveniently available in the app.** 

You can view all pending deliveries and pickups, as well as Delivery History. To add a new Delivery, select "Create New Delivery"	10:52  Deliveries & Pickups  Deliveries  Pickups  Access Codes  Drafts only (untracked)  Delivered  Today, 12:04 pm  Amazon order  Standard Delivery  View Delivery History	Add a description. Select Delivery Type from the dropdown menu. Insert Tracking Number.	9:41 Create Delivery DELIVERY DETAILS DESCRIPTION hiking boots DELIVERY TYPE Standard TRACKING NUMBER CARRIER		Once Tracking Number is added, the Carrier and Delivery Date will auto-populate. If you have a designated Access Code that you prefer to use, it can be selected at the	9:41 Create Delivery TRACKING NUMBER TBA774910008293 CARRIER USPS EXPECTED DELIVERY DATE (untracked packages) Select date
			(untracked packages) Select date Delivery Type Standard Grocery Prescription	Done	bottom of the screen.	CODE RESTRICTIONS 8293 Single Use Create Delivery

# **Time Saving Tip**

Highlighting and selecting a tracking number on your mobile device will allow you to use the SHARE feature to create a Delivery inside the App.

- 1. Select the Tracking Number.
- 2. Tap Share.
- 3. Select the Loxx Boxx App from the menu.
- 4. The Tracking Number will automatically be added to the Deliveries Creation screen.

# Pro Tip

Designating the Delivery Type as **Grocery or Prescription** turns on the temperature monitoring when the delivery is made and turns off the monitoring feature when you access the Boxx via Bluetooth or with the Master Code.

#### **Creating a Pickup**

Schedule USPS to pickup directly from your Loxx Boxx. Just complete the fields in the app and USPS will be automatically sent an access code and then pickup from your Boxx the next business day.

#### **Access Codes**

Access Codes are 4-digit codes that control access to your Loxx Boxx. These can be designated as single or unlimited use. Access Codes are ideal for frequent or non-tracked deliveries.

The Master Code is displayed at the top of the Access Codes Screen. It can be changed from the settings page.

Active and Inactive codes can be viewed on the page. To remove a code, swipe left and select Delete.

To edit, select the code to view the code detail page.

..l 🕆 🔳 Create Access Code ACCESS CODE DETAILS DESCRIPTION code for Jason CODE (4 DIGITS) 8348 RESTRICTIONS Unlimited Restrictions Done Unlimited Single Use

To create an access code: Enter the code description. Choose a 4-digit code. Select Unlimited or Single Use. Click "Create Access Code".

### **Carrier Adoption**

We have had great success with delivery drivers using Loxx Boxx. If you share a Tracking Number into the App, the last 4 digits of the tracking number become a one-time use code. There are instructions on the Boxx for the carrier to use the tracking number. Alternatively you can put an access code or delivery instructions in your shipping address as referenced below. It is also beneficial to explain to a postal worker or delivery person how the Boxx works and that the simple design will not slow them down on their delivery route.

#### Address example for one-time use codes:

John Doe 123 No Pirates Lane *Deliver Into Loxx Boxx: Code 1234* Parcel Perfect, USA

#### Address example for multi-use codes:

Jane Doe 123 No Pirates Lane *Deliver Into Loxx Boxx* Parcel Perfect, USA

Carrier Magnet included with purchase.

#### **Adding Additional Mobile Devices**

#### **Share with Friends**

You can send your friends an Access Code directly from the Access Code screen in the app.

Select "Share Code" and the App will open your messaging apps and allow you to choose how you share.

## Settings

The settings page hosts: Setup and Features Videos, Notification options, Temperature Settings, and Account Information.

#### Mounting a Loxx Boxx

Mounting instructions are included with your mounting hardware in the accessories kit. They can also be found on our website under support.

Find more helpful information at https://loxxboxx.com/pages/install-support

floor mount

#### **Master Reset**

To fully reset your device, you must delete the Loxx Boxx in the app and then follow these directions:

- 1. Use your Master Code to open the Loxx Boxx.
- 2. Hold both the Power and Learn buttons simultaneously for 10 seconds.
- 3. The Boxx will beep and the power button will flash red to confirm reset.

This will remove all access codes and configuration options from the Loxx Boxx.

This will not stop any recurring billing. Please contact <u>customersupport@loxxboxx.com</u> to address any billing issues.
