# Description

TSAR BOOST is a single germanium transistor boost pedal, designed to give you classic tones, but with a few twists. First, the input impedance has been raised to the point where humbuckers can be used without suffering low end loss. Second, a versatile tone control has been added which turns the pedal into an adjustable treble boost, for those Brian May tones.

# Specifications

Item	Specification
Bypass	True
Gain	15dB
Controls	Tone, Ungain
Size	4.4" x 2.7" x 2.0"
Input Power	9V to 15V @ 2mA
