

BY USING YOUR FANTOM-BRANDED HARDWARE DEVICE YOU ARE AGREEING TO BE BOUND BY THE TERMS OF THE TURNPIKE LIMITED WARRANTY AS SET OUT BELOW.

#### Limited Warranty

Subject to the conditions of this limited warranty, Turnpike or its relevant local affiliates warrants this device against defects in design, material and workmanship at the time of its original purchase by a consumer and for 1 year thereafter. See instructions if interference to radio or television reception is suspected.

#### What we will do

If, during the warranty period, this device fails to operate under normal use and service, due to defects in materials or workmanship, Turnpike, the Turnpike authorized distributors or service partners will, at their option, either repair or replace the device in accordance with the conditions stipulated herein.

#### Conditions

1. The warranty is valid only if the original receipt issued to the original purchaser by the dealer, specifying the date of purchase and serial number, is presented with the device to be repaired or replaced. Tampering with any of the seals on the device will void the warranty. Turnpike may restrict warranty service for hardware products to the country where Turnpike or its authorized distributors originally sold the device.

2. If Turnpike repairs or replaces the device, the repaired or replaced device shall be warranted for the remaining time of the original warranty period or for ninety days from the date of repair, whichever is longer. Repair or replacement may involve the use of functionally equivalent reconditioned units. Replaced parts or components will become the property of Turnpike.

3. This warranty does not cover any failure of the device due to normal wear and tear, or due to misuse, including but not limited to use in other than the normal and customary manner, in accordance with instructions for use and maintenance of the device. Nor does this warranty cover any failure of the device due to accident, modification or adjustment, acts of God or damage resulting from liquid outside of the approved levels.

4. There are no express warranties, where written or oral, other than this printed limited warranty. All implied warranties, including without limitation the implied warranties of merchantability or fitness for a particular purpose, are limited to the duration of this limited warranty. In no event shall Turnpike or its vendors be liable for incidental or consequential damages of any nature whatsoever, including but not limited to lost profits or commercial loss, to the full extent those damages can be disclaimed by law. Some countries/states do not allow the exclusion or limitation of incidental or consequential damages, or limitation of the duration of implied warranties, so the preceding limitations or exclusions may not apply to you.

#### Guidelines for safe and efficient use

Changes or modifications to this transmitting device not expressly approved by Turnpike may void the user's authority to operate the equipment. Please check for any exceptions, due to national requirements or limitations, in usage of transmitting equipment before using this device.

#### Taking care of your device

- Do not expose your device to levels of dust, dirt, liquid, moisture or humidity above or outside the intended use.
- Treat the device with care and do not expose it to extreme high or low temperatures.
- Do not expose your device to lit candles, cigarettes, cigars, to open flames etc.
- Do not drop, throw or try to bend the device – rough treatment could damage it.
- Do not use any other accessories than Turnpike originals intended for use with this device.
- Do not attempt to disassemble your device.
- Only Turnpike repair partners should perform service and/or remove or replace the battery.
- Heat may be generated when used. If you feel irritation or discomfort remove the product.

#### Radio frequency exposure

Your transmitting device is a radio transmitter and receiver. When in operation, it communicates with a transmitting equipped mobile device by receiving and transmitting radio frequency (RF) electromagnetic fields (microwaves) in the frequency range 2400 to 2500 MHz. The output power of the radio transmitter is below 0.01 watt. Your transmitting device is designed to operate in compliance with the RF exposure guidelines and limits set by national authorities and international health agencies when used with any compatible mobile device.

## FRONT

#### Safety and health aspects

- Turnpike recommends that the transmitting device is worn in positions where it will not be subject to pressure since such pressure may result in bodily injury or damage to the device.
- Do not allow children to play with your transmitting device since it contains small parts that could become detached and create a choking hazard.

#### Electronic equipment interference

Most modern electronic equipment is shielded from RF energy. However, certain electronic equipment is not, therefore:

- Do not use your device near medical equipment without requesting permission. For use in proximity to personal medical devices, please consult a physician and the medical device manufacturer.
- Check with your vehicle manufacturer's representative to be sure that your transmitting device will not affect the electronic systems in your vehicle.
- During a flight follow the instructions given by the flight crew related to electronic devices.
- Avoid electronic devices when in a blasting area or in areas posted turn off two-way radio to avoid interfering with blasting operations. Construction crews often use remote control RF devices to set off explosives.
- Avoid electronic devices when in any area with a potentially explosive atmosphere. It is rare, but your electronic device could generate sparks. Sparks in such areas could cause an explosion or fire resulting in bodily injury or even death. Areas with a potentially explosive atmosphere are often, but not always, clearly marked.

#### Disposal of old electrical and electronic equipment and battery

 This symbol on the electronic product or on its packaging indicates that the electronic product inclusive the battery should not be treated as household waste. Instead it should be handed over to the applicable collection point for  the recycling of electrical and electronic equipment. Do not attempt to remove internal batteries. Internal batteries shall be removed only by a waste treatment facility or trained service professional. By ensuring this product is disposed of correctly, you will help prevent potential negative consequences for the environment and human health, which could otherwise be caused by inappropriate waste handling of this product. The recycling of materials will help to conserve natural resources. For more detailed information about recycling of this product, please contact your local city office, your household waste disposal service, the shop where you purchased the product or by calling Turnpike or at [www.getfantom.com](http://www.getfantom.com).

#### Power supply

Connect the USB cable only to a safe and duly certified AC power adapter. To reduce risk of damage to the electric cord, remove it from the outlet by holding onto the AC adapter rather than the cord. Make sure the cord is positioned so that it will not be stepped on, tripped over or otherwise subjected to damage or stress. Do not twist or pinch the USB cable. To reduce risk of electric shock, unplug the unit from any power source before attempting to clean it.

 Danger – Never alter the AC cord or plug. If the plug will not fit into the outlet, have a proper outlet installed by a qualified electrician. Improper connection can result in risk of electric shock

#### Battery information

A rechargeable battery has a long service life if treated properly. Do not expose the battery to extreme temperatures, never above +55°C (+131°F). For maximum battery capacity, use the battery in room temperature. If the battery is used in low temperatures, the battery capacity will be reduced. Charge the battery in temperatures between +5°C (+41°F) and +45°C (+113°F).

#### Recycling the battery in your transmitting device

The battery in your transmitting device must be disposed of properly and should never be placed in municipal waste. Turnpike repair partner removing the battery will dispose of it according to local regulations.

#### Disclaimer

This Turnpike device has been confirmed to communicate via transmitting with some devices from other manufacturers. An updated list of devices this Fantom device has been confirmed to communicate with can be obtained from the Fantom web site [www.getfantom.com](http://www.getfantom.com) or from your local Fantome dealer. Turnpike does not guarantee that use of this device will be uninterrupted or error free. Performance of this transmitting enabled device with other devices not listed may vary as all transmitting devices are not compatible.
