

Baby Steps to Green

Easy Homemade Cleaner recipes- just a few ingredients, some empty bottles and a little elbow grease and your house is clean, fresh and non toxic.

How to- All of the recipes have different ingredients with the same 'make it' method. Just use a funnel to add ingredients to the bottle of your choice, put the lid, sprayer or cap on, give a good shake and start cleaning! (more info about bottles and methods on our website)
All recipes can have any essential oil of your choice added, but they aren't necessary for the cleaning so can be left out. Be sure to buy PURE essential oils.
