## Step by Step Installation Guide

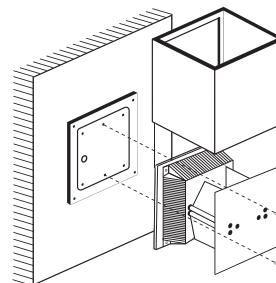

# LEEKI

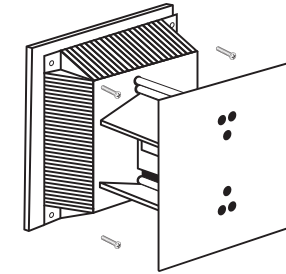

- ① Remove the outside cover from the main body of the wall lamp.

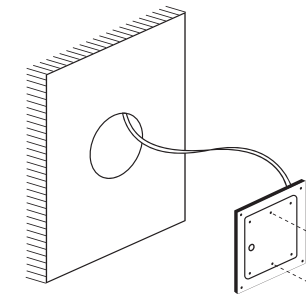

- ③ Drill two holes on the wall, and put the 2 plastic expansion bolts into the two holes. Then, fix the base of the lamp on the wall by using the screws in the accessory package.

- ⑤ The wall lamp is successfully installed.

- ② Use the screwdriver to remove the base of the lamp from the main body.

- ④ Fix the main body of the lamp into the base by using the screwdriver. Then apply the outside cover.

Thank you for your purchase of this lighting product. For your safety, please entrust a professional to install.

Be sure to cut off power  
**IN CASE OF ELECTRIC SHOCK!**
