

Galvalume Plus sheet metal

Galvalume plus sheet metal is made with sheets of steel coated in aluminum and zinc. Galvalume is an optimal material for metal roofing or awnings because of its superior outdoor corrosion resistance, long life expectancy and great look.

Used for awnings, metal roofing panels, cupolas, louvers, edge metal, flashing, step flashing, leader heads, gutter accessories, conductor boxes & skylights.

Galvalume Plus comes with a 20 year finish warranty.
