FOR IMMEDIATE RELEASE**

EZ Dupe introduces the Mini USB Plus Duplicator

June 26, 2018 – EZ Dupe is delighted to announce the release of the Mini USB Plus Duplicator at the Consumer Electronics Show (CES) 2019. We are well aware that times have changed and with everyone always on-the-go, our duplicators need to be on-the-go as well. Our aptly-named “Mini USB Plus” is small enough to easily carry around while maintaining extremely fast copy speeds and compatibility with USB 1.0, 2.0, and 3.0. To further enhance its portability, the Mini USB Plus can be powered by any USB power source, such as a cell phone power bank or USB charging port. This new duplicator is the first without a display and buttons to keep the duplication process user-friendly. With asynchronous copy mode, Mini USB Plus allows the copy process to commence immediately after USB drive is plugged in and users to replace an already duplicated drive with a new blank drive. No longer will users have to wait to finish a whole set of USB drives before duplicating new ones.

Features:

- Standalone, no PC required
- Asynchronous copy mode
- Plug and play, no button needed
- Up to 2 GB/min copy speed per port
- LED light indicates copy status
- USB adapter or USB power source
- No warm-up or cool-down required
- Light weight, ergonomic, portable design

About EZ Dupe

EZ Dupe has been a pioneer in developing and manufacturing EZ Dupe CD/DVD/USB/Flash Memory duplication systems and portable duplication technologies since 1995. EZ Dupe provides a three-year limited warranty (one-year warranty for certain products and market) on most of the duplication systems and proudly assembles and tests all products in City of Industry, California.
